SEARCHERS REPORT 2,000 DEAD IN ITALY QUAKE

Aviation Head Approves Lansdowne Field Unofficial Estimates of Deaths In Italy Disaster Run As High As 3,000

Suitable As Airport Says Gen. MacBrien After Viewing Site

Industrial Committee Would Enlarge Space by Adding City-owned Lots on Shelbourne Street to Provide Runways in All Directions; Removal of Trees and Hedges and Filling of Ditches Necessary; Ask Official O.K. From Ottawa.

Efforts of the city industrial committee to obtain a municipal airport for Victoria were greatly advanced yesterday when approval of the Lansdowne field with suggested improvements was given by Major-General J. H. MacBrien, president of the Aviation League of Canada.

Alderman W. T. Straith, chairman of the committee, yesterday met General MacBrien, who was watching a glider display at the air field and received his opinion on the matter. The aviation league head was favorably impressed with the layout of the field and declared if he had known the conditions of it, would have flown here himself instead of coming by boat.

The Lansdowne field comprises about seventy-seven acres, but with addition of several adjoining lots on the Shelbourne Street front now owned by the city, could be enlarged to about ninety acres, providing runways for planes in all directions.

The industrial committee has already communicated with the civil aviation department at Ottawa for official approval of the field as an airport site and it is understood further action on the matter rests on the outcome of this request.

Removal of a few trees in the field, elimination of hedges bordering the fence on the west side, and filling of ditches, would be necessary to bring the field up to requirements for airport purposes. With the addition of land on the Shelbourne Street side, General MacBrien expressed the opinion that the field would be perfectly adequate.

Nearness of the field to the city was stressed by General MacBrien as an attractive feature for an airport. He pointed out, however, that telephone and electric light wires on Richmond Road might prove a menace to pilots and could possibly be rerouted by another street.

Coming to the situation of the field, with its greatest length in a north and south direction, it would be particularly suitable to airport purposes here, he pointed out, since the prevailing winds are from a southeasterly direction. East and west runways could be made suitable by adding the lots on the west side.

The industrial committee will take General MacBrien's opinions under advisement.

Segrave Estate Amounts to \$82,000

London, July 24.—The estate of Sir Henry Segrave, king of speed on land and water, who lost his life when the speed boat "Helen" was upset in Lake Windermere last month, amounted to \$82,000, it was announced today.

THE GREATER EMPIRE VISION

From The Toronto Globe

The issue in this Canadian election carries a significance far beyond any of purely national importance. That the voting comes at a crucial period in Empire history may be a coincidence, but the call to Canadian loyalty implied in the Dunning Budget must be regarded as a deliberate step with full knowledge of its bearing on Empire events.

A magnificent Empire vision has arisen to stir the imagination and the ambition of Empire peoples. In this Canada's Empire Budget plays its part.

In this election we are talking about intra-Empire trade. It is a thrilling theme, forced immediately on our attention by the selfish tariff actions of other countries. We have lost markets—other Empire countries as well as Canada—and must find new ones. The imports of the Empire aggregate \$11,000,000,000 yearly, much of them from countries without the Empire. The first step is to divert as much as possible of this trade from foreign to Empire countries. Canada's budget will divert \$200,000,000 worth to start with. There is no doubt that if the spirit of this budget prevails at the forthcoming Imperial Economic Conference other Empire countries will make similar diversions for Empire benefit.

The idea behind it is to marshal all the resources of the Empire—scientific, financial, educational—in one great, common cause, to make the Empire and each component part throw with new life, to bring commercial and scientific agencies into operation along well-determined lines with a view to achieving the greatest results.

No gigantic business enterprise was ever conceived with such completeness, and with a view to the possibilities here expected. No combination of gigantic enterprises ever suggested could approach it in magnitude or purpose. There is none other like it—the collaboration of one-quarter of the world's population—no resources to one end.

It involves co-operation for scientific research, the using of the Empire's best brains for the solution of scientific problems. It involves financial co-operation to produce results from these investigations. It involves the exchange of assistance of all kinds.

It can be seen that Empire trade is but one step, but it is the initial step. No one supposes the building of a magnificent, self-contained, self-reliant, co-operating Empire can take place overnight. The trade channels must be put to work, and the possibilities of immediate results discovered. Science and finance will bring developments in their logical order as found advisable or necessary. New industries will be created as materials present themselves, and new commodities will find their places on the All-red route.

In being asked, therefore, merely to endorse the Dunning Budget with its possibilities, Canadian voters are asked to take the first step toward making the greater Empire vision come true. They are asked to declare themselves a party to this great development in which Canada will share in proportion to its size, resources and geographical position.

Throngs Interested In the New Peace Move In India

Millions in India are awaiting a report on the conference between Sir Tej Bahadur Sapru and M. Jinnah, members of the Indian Legislature, with Mahatma Gandhi, Nationalist leader, in the city of Yeshu. The two yesterday sought a compromise with Gandhi to end the campaign of disobedience and were to continue the conference to-day. If they are successful such scenes as that above, recently photographed in Bombay while police were holding back a great throng of demonstrators, will end.

Junior and Senior Matric Pass Lists For Island Issued

Kathleen Marjorie Baker of Victoria High Wins Governor-General's Silver Medal for Heading District No. 1 With Average Less Than Two Per Cent Below Leader of Province; Senior Students Show High Standard in Tests.

First in Junior Matric Examinations

Kathleen Marjorie Baker, student of Victoria High School, won the Governor-General's silver medal awarded to the pupil making the highest percentage in Victoria District junior matriculation examinations. It was announced this morning, upon the issuance of the pass lists for the junior and senior matriculation classes, by the Department of Education.

The Victoria student had an average of 82.5 per cent, one and three-tenths per cent below the mark of Rhonda Naomi Davis, of South Vancouver, who topped the students of British Columbia in the senior matriculation division. Rhonda Joyce McKinnon of Kitimat, B.C., led the province with an average of 82.7 per cent.

Scholarships and prizes were given to the leaders in both junior and senior sections.

The results were as follows: Of the 3,113 candidates who presented themselves for junior matriculation examination, 1,290 passed in all subjects, 779 were granted supplementary examinations and 906 were granted partial standing. In addition, 82 candidates wrote to obtain marks on one or more subjects.

Of the 3,113 candidates who presented themselves for junior matriculation examination, 1,290 passed in all subjects, 779 were granted supplementary examinations and 906 were granted partial standing. In addition, 82 candidates wrote to obtain marks on one or more subjects.

LORD DAVIDSON ESTATE

London, July 24.—The will of the late Lord Davidson of Leith, until 1928, Archbishop of Canterbury, was probated to-day at \$160,000. At the time of his resignation two years ago he received a gift of nearly \$50,000 from world-wide subscriptions. This sum is left to the general Archbishop of Canterbury for general church needs as they may arise.

WAR HERO IS IN CUSTODY IN LOS ANGELES

G. R. Clifford, Canadian Aviator of Splendid Record, Snatches Purse Sought Work as Commercial Flier; Psychiatrists Study His Case

Los Angeles, Cal., July 24.—A shabbily dressed man, definitely identified by police as Captain George R. Clifford, a Canadian hero of the World War, is under arrest here to-day on a charge of purse snatching.

Captain Clifford was taken into custody after two men had captured him while he was walking alone on a street here. He was seen to be carrying a large bag.

Psychiatrists said he was suffering from "repressive insanity."

CREWS CHECK ISLAND FIRE

Campbell River, July 24.—With an improvement in atmospheric conditions and a lessening of the fire hazard, the 700-acre outbreak at Trout Lake, west of Marmora Bay, Vancouver Island, is being put under control, it was announced to-day.

The fire, which has been threatening stands of virgin timber, the scene of logging operations by several big companies was quiet on Wednesday than for several days, it is said.

BAKERY CASE RAISES NEW POINTS OF LAW

Mr. Justice Gregory Rules Magistrate Has Authority to Hear Charge

Company Holds Proceedings Should Be By Way of Indictment

Canadian Press
Vancouver, July 24.—Holding the jurisdiction of Deputy Police Magistrate F. McD. Kerr, Mr. Justice Gregory in the B.C. Supreme Court here refused an application for a writ of prohibition to restrain the magistrate from hearing a charge against Robertson's Bakeries Limited.

Objections to the police court hearing was taken by R. L. Reid, K.C., counsel for the company, on the ground that the proceedings should have been launched by indictment and not by way of preliminary inquiry. The objection was overruled by the judge.

Robertson's Bakeries Limited is charged with selling bread between June 3 and June 18 bread to which a false trade description was applied, namely, that the bread weighed 16 ounces.

There may be a question whether the company can be committed for trial by a higher court, it is said, since prosecution officers expect to get over this difficulty by submitting evidence to the grand jury at the fall sittings.

Will Start Work On Post Office Station

Imperial Oil Co. to Proceed With Work on \$50,000 Building at Once

Contractors Now Figuring on First Unit of Station, Which Will Be Unique

At a total cost of nearly \$100,000, including the purchase of the site, the Imperial Oil Company will erect an artistic super-service station on Government and Humboldt Streets that, when completed, will provide a brilliantly lighted landmark for vessels and a structure which will conform with the standard of buildings in the district.

E. D. Le Lachur, Victoria manager of the company, announced to-day.

Contractors are now looking over the plans for the first unit of the building and tenders are returnable to-morrow. The cost of the completed building will be about \$50,000 and work on the first unit will start immediately.

Besides service for cars driving in from the road, the station will offer service for launches and the waterfront and will attract the attention of boats by lighting effects which will be bright enough to light up much of the inner harbor. On top of a 65-foot tower a beacon light will provide a signal.

(Continued on Page 14)

PETER VEREGIN PAYS \$50 FINE

Grand Forks, B.C., July 24.—Peter Veregin, president of the Christian Community of Universal Brotherhood and spiritual head of the Doukhobors, was fined \$50 here yesterday evening for causing a disturbance in public on Monday night last.

He pleaded not guilty to the charge but evidence favored the prosecution and Magistrate F. Crowe levied a fine of \$50, which the Doukhobor leader paid.

Liberal Meetings To-night, To-morrow and Saturday

Following are the principal Liberal meetings in Victoria City and Nanaimo during the remainder of the campaign:

STUART HENDERSON'S MEETING
To-night—Miss McQuarrie and Stuart Henderson over CPCT at 8 o'clock.

To-morrow—B.C. Electric car hays at noon.
Saturday—Dugald Donaghy, K.C., Vancouver, and Stuart Henderson at the Royal Victoria Theatre at 8 o'clock. Capt. George McGregor in the chair.

C. H. O'HALLORAN'S MEETINGS
To-night—St. Mark's Hall, Holcote Road, Saanich, and Rex Theatre, Esquimalt (broadcast), at 8 o'clock.
To-morrow—Laidlaw's, with George S. Pearson, M.P.P., at 8 o'clock.
Saturday—Nanaimo, with T. D. Pattullo, Provincial Liberal leader, and George S. Pearson, M.P.P., at 8 o'clock.

In addition to the above there will be a broadcast of Premier Mackenzie King's Ottawa speech, Saturday evening, between 6 and 8 o'clock, Victoria time.

SASKATCHEWAN VILLAGE TO-DAY SWEEPED BY FIRE

No Water Supply Available When Flames Break Out in Rhein

Yorkton, Sask., July 24.—Breaking out in the Government liquor store here at 2:30 a.m., to-day fire raged through the village of Rhein, northeast of Yorkton, completely wiping it out. No water being available locally, help was obtained from Canora, sixteen miles north. The flames, however, had obtained too strong a hold and when Fire Chief Jenkins from Yorkton arrived, it was found hopeless to fight against the raging conflagration. The loss is estimated at \$50,000. It was still burning at noon.

THE LOSSES
The following buildings are total losses: Hotel, H. Cross grocery store; government liquor store; post office, shoe repair shop owned by J. Marcy; Achim's; Dika's garage; Wang's Chinese restaurant; Smith's pool room; A. L. Weimaster, real estate office; livery of H. Thomas.

Known From Reports That at Least 4,260 Persons Were Injured During Heavy Earth Tremors Yesterday; Houses Destroyed Total More Than 3,180 and Many Others Damaged; Frightened People of Naples Region Watch Mount Vesuvius.

MUSIC TEACHER MUST PAY FEE, COURT ORDERS

G. Jennings Burnett Fined \$5 For Failing to Pay Trade License

Attempt to Throw Out By-law Fails; Counsel Intimates Appeal

A decision of interest to a large number of music teachers in Victoria was handed down in City Police Court this morning by Magistrate George Jay, who imposed fine of \$5 on G. Jennings Burnett for failing to obtain a trade license. In addition the license fee of \$10 must be paid.

The conviction was made in the face of an attempt by H. A. Beckwith, defence counsel, to have the trade license by-law declared ultra vires on the grounds that it exceeded power granted under the British North America Act with respect to direct taxation.

Further argument on this point was submitted this morning by Mr. Beckwith, who held that both the Victoria Special Act, under which the by-law is drawn, and the by-law itself were ultra vires.

City Prosecutor C. L. Harrison pointed out that similar cases had been argued several times before when attempts to have the by-law thrown out were defeated.

"I would have to go a long way to declare the provincial statute ultra vires," declared the magistrate, "and under the Victoria Special Act the by-law must be effective."

Mr. Beckwith asked for a nominal fine, stating the case was in the nature of a test.

Mr. Beckwith asked time to pay the fine pending decision as to whether he would appeal the ruling of the court.

Thousands In Ontario Cheer Premier King

Advance Polling To Start To-night In Pemberton Building

Railway employees, seamen and commercial travelers who will be called out of town in the exercise of their business on election day, Monday, July 28, may vote at the advance poll which starts at 7 o'clock to-night in Room 214, Pemberton Building, according to H. E. A. Courtney, returning officer for the Victoria riding. The poll will be open to-night and to-morrow night from 7 o'clock until 10 o'clock, and on Saturday from 2 o'clock until 10 o'clock in the evening. There is no provision under the Federal regulations for an advance vote.

U.S. Coastguards Fire on Yacht And Wound Men

Wood's Hole, Mass., July 24.—U.S. coastguard patrol 2-3 which fired on the yacht Margo off Burna early yesterday, wounded two of the six men aboard her, it was learned to-day.

Frederick Stone and Daniel Conway, both of New Bedford, received machine-gun bullet wounds in the legs.

The introduction of Premier King by Mr. Malcolm, who was chairman of the meeting, brought a great outburst of cheering.

(Continued on Page 3)

NEW YORK REPORTED TO BE SHIPPING GOLD TO OTTAWA

New York, July 24.—Financial circles here believe \$2,000,000 in gold sent to Canada within the last few days to an unnamed shipper went to the Canadian Government.

It is pointed out that as a rule banks which ship gold make no secret of the fact, but when no shipper will admit exporting the metal, it is concluded generally the transaction has been undertaken for a foreign government or government agents.

Canadian Press
Naples, Italy, July 24.—Government officials this afternoon expressed fear that the earthquake death list in Southern Italy officially given out at noon as 1,778, might be far exceeded as the count progressed. Unofficial reports said 3,925 bodies had been taken from the ruins throughout the devastated territory.

Reports of houses destroyed by the shocks yesterday, receded up to this afternoon, brought the total to 3,180, with 2,757 others damaged in part.

Of the 3,180 houses wrecked, 2,066 were in the Province of Avellino. Communes more heavily stricken were Ariano, Aquilone, Montecalvo, Bimacco, Lacedonia, Villanova and Andria.

Adding to the terror of the earthquake, the city of Naples was swept this morning by a hurricane. Great waves were driven ashore increasing the fears of the stricken populace.

Disturbed by the possibility of epidemics, health authorities took precautions against disease and sent out word for anti-tetanus serum and medical supplies.

WATCHING VESUVIUS
Sombre Mount Vesuvius, which stands a stern guard above Naples, raised fears among some of the populace as its summit glowed duly in the sky.

The volcano of Pozzuoli, a smoke mountain obscured by the fame of its mighty neighbor Vesuvius, was in eruption to-day. Seismologists said it was kicked into action by yesterday's succession of earthquakes.

MELT STRICKEN
A report said the death list in the volcanic crater city Melfi was increasing every hour as the work of rescue parties in the ruins progressed.

The report said the cemeteries in that town had been completely filled and 200 bodies had to be taken by train to Foggia for burial.

Upon receipt of this information the Bank of Naples placed 500,000 lire at the disposal of the government for relief work.

EARL OF STAIR SAILS FOR HOME

Recent Visitors at Government House Impressed With Canada

Montreal, July 24.—Laughingly reminding reporters who met them on their arrival a month ago, the Earl and Countess of Stair were both very ready to give their impressions of Canada when interviewed yesterday just before sailing for home on the Canadian Pacific Duchess of Richmond. "You will remember," Lady Stair

said, "that we were afraid you were going to ask our opinion of the Dominion the day we landed and then let us off when we promised to give that at the end of the visit." Both were enthusiastic about the Dominion which they visited from Coast to Coast during their month's stay. "What really appealed to us more than anything," Lord Stair remarked, "was the hospitality of Canadians. By George, they don't care what it is you want, they jolly well get it done for you. One of our principal interests during the visit was to see the conditions under which the cattle we shipped out here are herded, and I must say that I was disappointed to see so many Holsteins and so few Scottish cattle. The Ayrshires we sent out to British Columbia last September are in remarkably fine shape." During their visit to the Coast the Earl and Countess were guests of Hon. R. R. Bruce at Government House, Victoria. They paid a visit to the Agricultural College at Vancouver where they were shown prize winning

cattle also from their own Scottish estates. The only function attended by the Earl while in Canada was the seventy-fifth anniversary celebration of the Grand Lodge of Canada, held in Toronto early this month. The Duchess of Richmond sailed at 11 a.m. daylight saving time, yesterday, en route to Liverpool direct.

Lapointe Urges Premier King Be Sent to Conference

Quebec, July 24.—Hon. Ernest Lapointe, Minister of Justice, was the principal speaker at a Liberal rally held in St. Paul yesterday. Mr. Lapointe told his hearers the Liberal administration had lowered the national debt and decreased taxation at the same time, and was worthy of further support so the work might go on. He asked for the support of the people so that Canada might be represented at the forthcoming Imperial Conference by "men who will represent Canada in the true light because they understand the true aspirations of the people."

POSITION OF MEIGHEN IN ELECTION ASKED

Ontario Liberal Speaker Also
Inquires Where Sir Robert
Borden Stands

Port Credit, Ont., July 24.—Speaking here yesterday in the interest of W. J. Lowe, Federal Liberal candidate in Peel, W. B. F. Parker, chairman of the campaign committee of the Ontario Liberal Association, asked why Right Hon. Arthur Meighen and Hon. Sir Robert Borden, former Conservative Prime Ministers, were not taking part in the present campaign. Mr. Parker said he had been "readily informed" that Meighen had not been asked to speak or take any part up to the present time. "The fact cannot be ignored," Mr. Parker said, "that he was recently a Conservative prime minister and leader of the Conservative Party. It is acknowledged by all, irrespective of party, that he was one of our greatest parliamentarians. Has he, in effect, been asked to stay at home and, if so, why? Also where is Sir Robert Borden, another Conservative prime minister and leader of his party?"

BOY ELECTROCUTED IN BALL GAME SEAT

He Climbs Pole For View and
Touches High Power Line

St. Louis, July 24.—Several hundred persons saw Frank, eight-year-old son of Mr. and Mrs. John Hargel of 1119 Reynolds Street, Madison, electrocuted when he climbed a pole to get in contact with a power line near a baseball diamond. Thirteenth Street and Tri-City Park Avenue, Madison. Nobody could read the boy's danger until he had been electrocuted. Apparently he climbed the pole as a stunt, since he could have had a better view of the game from the ground. Several wires are attached to the pole. As the boy reached the crossarm, he touched a line carrying 10,000 volts from the power house of the Illinois Power & Light Company. His body stiffened and hung in mid-air until the power was shut off.

Move Against Talkies in English Started in Mexico

Special to The Times
Mexico City, July 24.—Municipal authorities throughout Mexico have been asked to take notice of an ordinance passed by the council of the City of Oaxaca forbidding the exhibition of talkies in English or any language other than Spanish. The town's officials are urged to follow this example on the ground that "moving pictures with songs or discourse in English are injurious to those persons who lack culture and for whom moving pictures are the only window through which they pass upon life, and exert a most pernicious influence upon their problems and upon their conception of social morals, and above everything else, upon their patriotic sentiments." "Such a danger," continues the statement to the municipal officials of the country, "is greater in small towns where moving pictures are the only amusement available and the only source for an artistic education. Prohibition to exhibit talkies in English is not only a question of social convenience, but it also serves to protect future generations for a manœuvre of international politics, it being considered as a new phase of the conquest of Latin America by Yankee imperialism using language as its weapon."

BABOON DIES
Milwaukee, July 24.—Sir Frederick Montague Style, seventy-three, British nobleman, died here yesterday after an illness of a year. He was the tenth baronet of his line and came here from Wales in 1921.

PRIMITIVE TRIBE IN MEXICO IS TO BE EDUCATED

Government to Send Teachers
to Mixe Indian Territory in
Oaxaca State

Special to The Times
Mexico City, July 24.—A people who laugh when they are sad and weep when things are going well with them has been discovered in southern Mexico. These queer folk are the Mixe Indians, who inhabit the backwoods of the semi-tropical state of Oaxaca. This tribe, according to travelers who have just returned from the region, live in a most primitive fashion and in many respects bear a close resemblance to certain African negroes. One of the travelers declares that when he entered a Mixe village the natives wept as they came to greet him. He thought death or desolation had befallen the community, and was surprised to learn all was well with the townfolk. While there he suffered a severe toothache and he was annoyed to find those he encountered laugh merrily when he indicated his discomfort.

MAKE SACRIFICES
According to the travelers, the Mixe dwell in little round huts made of reeds and many of their customs savor of African influence, although the Mixe are obviously of American origin. These people are idol worshippers, and while the visitors were in their midst they witnessed bloody sacrifices to the various stone and wooden gods. Dogs, cats, pigs and donkeys were slaughtered as sacrifices. The Indians laughed during this ceremony for it was a sad occasion. The petition was to beg that thunder and lightning storms be less frequent. Another sacrificial ceremony that was witnessed consisted of the beheading of a flock of turkeys and the burning of the carcasses in a bonfire before a huge stone idol. The natives wept copiously during this rite, for it was a thanksgiving sacrifice as the crops had been unusually good.

HUMAN VICTIMS
It is whispered that human sacrifices are made by these people to this day to their numerous gods. But no direct evidence regarding this practice has been forthcoming. The travelers, however, report that their guide told them that from time to time wrongdoers of the tribe are slain in public with a specially constructed stone sword and the corpses burned before the idols. Indians of other tribes have strayed into the Mixe land and have never again been seen. It is supposed they became sacrifices in relation to the gods to save the land from foreign invasion. Domestic animals and birds seem to have a hard time of it in the land of the Mixe. When things go wrong with individuals or the community as a whole, there is a wholesale slaughter of dogs, cats, turkeys and other similar animals and birds. These are burned before the images. The Mexican government is arranging to send into this primitive region a "cultural mission" with the hope that the Mixe will be made useful citizens, thanks to education and a civilizing influence.

Hoover Inquires About MacBrien Airplane Fine

St. Paul, July 24.—A fine of \$500 imposed on Major-General J. H. MacBrien, president of the Aviation League of Canada, for alleged failure to report his arrival in the United States by airplane, is to be the subject of an investigation by President Hoover's office. This was made known in a letter received yesterday from George A. Peterson, secretary to President Hoover. Major-General MacBrien flew from Ottawa to Chicago and thence to St. Paul after notifying the former city customs officials by wire of his intended arrival. Because Chicago has not been designated as an official port of entry, no customs agent recorded his arrival. After reaching St. Paul, General MacBrien said he made another effort to report his entry, but local representatives of an airplane company said they could not find a customs agent. The next day, however, customs agents took General MacBrien into a customs department, where the fine was imposed and paid.

Constantly For Eight Years

"I have been a constant user of Pacific Milk for eight years. I find it richer and more creamy than any other canned milk. I prefer it to fresh milk for cooking as I find it more economical, and it is always ready to use. Cream soups, puddings, etc., are superior when made with it." The lady who wrote these lines lives in New Westminster. We are not privileged to give her name. We are grateful for her letter.

Pacific Milk
Factory at Abbotsford, B.C.

MY GRATITUDE TO SARGON IS BEYOND WORDS

No Other Medicine on Earth
Compares With It, Declares
Mrs. M. C. Jacques

Abundant health and the deliverance from suffering has been the happy reward of thousands who have put Sargon to the test. That you may profit by the experience of others with this

MRS. M. C. JACQUES
new scientific treatment, read the statements made recently by Mrs. M. C. Jacques, 131 W. Dekum St., Portland, Oregon, who said:

"I don't believe there's a medicine on earth that compares with Sargon. For the past few years I'd been in such a nervous, rundown condition the least exertion seemed to just wear me out. I had a sick headache and dizzy attack nearly every day, and sometimes my husband would have to lead me about. My stomach gave me so much trouble I never dared to eat over two meals a day, and I couldn't even digest these. I feared at times that my kidneys were affected, for I was forever having backaches, and frequent night rising broke into my rest."

"I could feel the marvel strengthening and invigorating effects of Sargon right from the first few doses, and since I've finished my fourth bottle I'm like a new woman! Every trace of stomach trouble has disappeared; my kidneys seem normal; the nervousness is gone and I enjoy sound, refreshing sleep every night."

"After taking sickening calomel and other drastic purgatives for years, trying to rid myself of constipation, Sargon pills completely overcame this trouble without the slightest upsetting effect; and my headaches and dizzy spells have 'passed into history.' I have no words to express my gratitude for this wonderful Sargon treatment."

Sargon may be obtained in Victoria and Vancouver from all Owl Drug Stores; in New Westminster from the Bess Drug Co. and in Esquimalt from Fulmer's Drug Store. (Adv.)

MAN DROWNED IN HIS CAR IN VANCOUVER BAY

O. W. Evans Loses Life When
Auto Falls Off Balantyne
Pier

Vancouver, July 24.—O. W. Evans, salesman for McLennan, McPherson and Prior Limited, was drowned in the harbor here at 12:15 a.m. today when his automobile plunged off the Balantyne Pier, police report.

Police dragged for the body. According to the report, Evans drove a friend, George Crooks, quartermaster of the Ss. Southam, to the pier. After his friend had left him he started his car on the west side of the pier. According to witnesses, the wheels of the car apparently caught in the railroad track and the car skidded off the dock, plunging into forty-five feet of water.

The accident was witnessed by two longshoremen.

PAYMENTS TO MANITOBA

Winnipeg, July 24.—The Province of Manitoba, after receiving a \$4,880,000 natural resources cheque a week ago, is to receive \$2,165,000 more from the Dominion, stated J. S. McDermid, Liberal M.P. for Winnipeg South, yesterday evening. The figure, he said, covered the total payment of annual subsidies due Manitoba from Ottawa within the next year.

C.N.R. EARNINGS

The gross earnings of the Canadian National Railways for the week ending July 14, 1930, were \$4,292,310 as compared with \$4,412,312 for the corresponding period of 1929, a decrease of \$1,121,002 or twenty-one per cent.

Scur Stomach

Sweetened instantly

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain disappears. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of learning. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any drug store. (Adv.)

CRERAR AIDS NEW HUDSON BAY ROUTE TRAFFIC

Souris, Man., July 24.—Hon. T. A. Crerar, Minister of Railways and Canals, to-night pledged himself to use every effort to obtain fair insurance rates on goods carried over the Hudson Bay route. He said he would seek to have the Crow's Nest Pass rates apply on every bushel of grain passing through Churchill, at the end of the Hudson Bay Railway.

Canada's opportunity was at the present time, Mr. Crerar said, when United States had earned the enmity and hostility of the world by raising a tariff wall. Canada must seek an outside market for fish, pulp, timber and grain, he said, because the population was not sufficient to assure home consumption.

Ten cents a bushel would be the freight rate saving on wheat passing over the Hudson Bay Railway, according to J. W. Breakey, M.P.P., who also spoke.

PLUNKETT SAYS LIBERALS IDLY IGNORED TASKS

Conservative Candidate Protests Expenses of Minister at Washington

Denouncing the Mackenzie King government for investing \$500,000 in a residence at Washington for the Canadian Minister, D. B. Plunkett yesterday evening at South Park School criticized expenditure of \$100,000 annually to maintain the office, which he considered had been responsible in part for \$80,000,000 being taken from Canada through imports from the United States.

Mr. Plunkett was supported by C. F. Davis, M.P.P., and Mrs. James McGregor. W. C. Winkel occupied the chair.

Mr. Plunkett said Premier King possessed ability to infer more and do less than any other man he ever met. Lack of action on unemployment insurance, failure to reform the Senate, shelving of the expensive radio commission's report and suspension of the Health City service recommendations were cited as instances of Liberal inactivity.

The Liberal administration had given Canada eight years of failure, he said. Industry could benefit little from Liberalism as Mr. King had no conception of the problems involved in the interlocking of all industry, the candidate claimed.

Mr. Plunkett said the present system of old age pensions was unfair, as it debared lifetime residents of Canada from benefit in provinces which had not agreed to share a part of the cost. Mr. Benson was reacted with power the whole pension system would be made a national undertaking.

BUDGET FAULTY
The Dunning budget was declared to be a hurriedly planned affair, replete with faults even after being amended in twenty important particulars before it was acceptable to Liberal members of the House. "If industry is to progress we must protect the manufacturer. We cannot have a policy which permits the selling of our country to the United States," he concluded.

NO SINCERITY
C. F. Davis, M.P.P., said unemployment was a problem which had been developing two years, and the Conservative party was the only one which could provide an adequate solution. He considered that traditional Liberal policies had been thrown overboard with the presentation of the Dunning budget, free trade being superseded by a vote-getting tariff schedule outwardly designed to protect and safeguard industry. The new legislation, in his opinion, was not brought down with sincerity, three cabinet ministers, Messrs. Dunning, Crerar and Stewart, being all on record earlier as opposed to protection.

Mrs. McGregor urged the women to take an active interest in the campaign in support of Mr. Plunkett. She denounced the Liberal government for appropriating only \$1,049,000 for the Department of Health while approving expenditure of \$2,550,000 on promotion of health of animals. Placement of the health of animals before the health of man was an illustration of the lack of man was an illustration of the lack of

U.S. Experts Are Making Plans For New Warships
Washington, July 24.—A revised naval construction programme necessitated by the London Treaty is to be ready for presentation to Congress in December.

The experts of the navy general board are working out the problems involved and have estimated that if the United States fleet is built to the maximum permitted by the London pact, an expenditure of nearly a billion dollars must be made.

President Hoover affixed his signature to the United States instrument of ratification on Tuesday.

Later it was announced the general board, at work on the new construction programme, had asked for plans for an unusual number of six-inch gun cruiser capable of carrying twenty-five airplanes.

July Sale of Dresses and Millinery

WASH DRESSES

For Warm Weather Wear

HER PLACE HOME; YES, BUT WHERE?

Most Women in Business Because Forced Out, Says Modern Portia

Barton, July 24.—According to Miss Martha L. Connors, a modern Portia attending the directors meeting of the National Federation of Business and Professional Women's Clubs here, most women are not out in the business world because they want to be. She thinks they have been "kicked out" of the home. And furthermore she says it is getting harder all the time for women to succeed because "chivalry has fallen into the ashcan."

The Skinniest Man In All The World

He Was Weak, Sickly and Nervous

There's nothing in life so valuable as health.

And any weak, skinny, flat-chested man who fails to take quick advantage of the wonderful flesh-adding, strength-creating, rejuvenating substance found so abundantly in McCord's Cod Liver Extract Tablets must want to be a constantly complaining invalid—he may like to be called "weak-knees" behind his back.

From lives of lowly Codfish come these precious flesh-building elements of the first magnitude—for years prescribed by doctors for run-down, nervous men, women and children.

Get 60 McCord's Cod Liver Extract Tablets for 60 cents at McFarlane, Vancouver and Owl Drug Stores or any drug store and if you don't gain at least 5 lbs. in 30 days—money back. Beware that perpetual tired feeling—gain a rugged, well developed body that will justify be an ever source of pride.

the Associated Press as urging women to return to home making and pay less attention to the lure of professional and business careers.

"And where," she asked, "is the home we are to return to? Moreover, for nearly every woman who is working there is some man—father, husband, son, brother or other male relative, dead or alive—who has fallen down on the job of providing for her support."

HEIR OF LATE MARQUIS WED

Earl of Ava, Son of Airplane Crash Victim, Marries Miss Guinness

Canadian Press

London, July 24.—The marriage took place at St. Margaret's, Westminster, recently of the Earl of Ava, son of the Marquis and Marchioness of Dufferin and Ava of Clarendon, Co. Down, Ireland, and Miss Mary Guinness, daughter of the Hon. Ernest and Mrs. Guinness of Grosvenor Place and Glenmaroon, Chapel Road, County Dublin, and Ashford Castle, Co. Galway. The Archbishop of Armagh, Primate of all Ireland, officiated, assisted by Rev. R. Deane.

The bride, who was given away by her father, wore a close-fitting gown of white satin, cut on medieval lines, with a full skirt edged with tulle. The back of the skirt formed the long train, which was embroidered with raised white satin tulle, and gold leaves. Her tulle veil, which was edged with gold, was held in place with a headpiece of gold embroidered leaves, and she carried a sheaf of lilies. The bridesmaids wore close-fitting gowns of white tulle, with full skirts, outlined with finely-pleated tulle. They wore headpieces of pale gold crystal and carried bouquets of gold and silver crystal flowers, edged with tulle.

The father of the bridegroom, the late Marquis of Dufferin and Ava, was one of the victims of the terrible airplane disaster in Kent, England, on Monday last. The bridegroom, accordingly, is now the Marquis, and his bride the Marchioness of Dufferin and Ava.

O.E.S. Garden Party.—Under the auspices of Ruth Chapter, O.E.S., a garden party will be held at the residence of Butler and Mrs. Jeffrey, Experimental Farm, Sidney, on Saturday, July 26, from 3 till 6 o'clock. Pupils of Miss Florence Clough will give a programme of fancy dances.

MODERN GIRL SEEKS CAREER THAT WILL GIVE HER SOCIAL STANDING, SAYS EDUCATOR

By JULIA BLANSHARD

New York, July 24.—Now that woman's right to a career is thoroughly established and everybody thinks it is smart to work, what, we might ask, makes girls choose this kind of work or that?

Does the salary they are likely to receive in a particular line of work make girls decide upon it? Is it, then, economic determinism?

Is it the degree of fascination certain types of activity offer them which others lack? Is it, then, that they seek expression through their work?

Or could it be the number of eligible men they are likely to meet in one kind of work and not in another? Is it that they expect to marry, though careering?

It really is none of these, primarily, answers a woman who has been in vocational work for the past ten years, a woman who has advised and consulted with hundreds of girls who are in the stages of choosing their life work—Miss Helen Livingstone, a prominent New York educator.

LOOKS TO SOCIAL POSITION

"The most important factor to most girls in choosing work is the social position that the job would give," Miss Livingstone told me. "It is the standing in a given community that this work or that has that determines their choice. Work which stamps them with social inferiority, like domestic service, they shun like the plague, though there may be more pay, more leisure, an easier life in general."

"Salary, the amount of interest a job holds, the number of men they are likely to meet, are all factors, undoubtedly. But the social standing

Miss Helen Livingstone... has helped hundreds of girls to choose their life work.

manly-respected careerist, she meets an entirely different type of men than she would in other work; she mixed with people who have entirely different interests and ideas, and her whole life is different. Girls instinctively know that."

There is no absolute scale of social standing in work, however, according to Miss Livingstone. Take New York for an example.

SELLING GOES "SOCIAL"

Ten years ago girls who clerked in store got fifty. To-day, college girls and social register have been like an invading army marching into department store work and the result is that it is quite the social thing to be selling. Specializing in different types of department store work has a tremendous vogue. Who can say but what the future may not see girls going into specialized domestic work in the same way. Some one may make it the thing to do. "Everybody will do it."

Miss Livingstone organized the Ochs Technical School's vocational work in Detroit ten years ago. Now she is principal of the Helene Girls' Technical High School, New York. Her work consists not only of studying the possible vocations girls could follow, but of studying the community and determining what lines are likely to offer the best opportunities for placement upon graduation. Her school includes in its curriculum millinery, dressmaking, costume designing, the commercial arts, stenography and all types of clerical work, art retail work and weaving, and this coming year, in response to a widespread demand, they will add cosmetology, in all of its branches of beauty.

YOUR BABY and MINE

to MOTHER MEYER BLAND

Mrs. Bland will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

DON'T FORCE CHILD TO ACCEPT ATTENTION FROM STRANGERS

"Why is my baby so afraid of strangers?" "What makes Mary so timid?" The ambition of most parents is to have baby smile sweetly in the arms of any stranger, as a subtle compliment to the stranger, or to have the small child curtsy politely, say "How do you do," and vanish to be seen and heard no more. This always elicits the response, "What a lovely child."

Wonderful, ideal, and not easily accomplished. The usual baby lifts his voice in frenzied protest when anyone takes him from his crib or the arms of his mother, while the older child scurries for cover, or humiliate her mother by "knowing off" without a glance at the stranger. If children were dolls it might be otherwise, but being children, they act in this way.

FUSSING UNWELCOME

The small baby protests because the affectionate adult cannot wait until baby is accustomed to his strange presence, and is willing to be picked up and fussed over. Instead she grabs him and hugs him in a manner that would frighten anyone. We might expect a sign at every baby's crib (to save the mother the embarrassment of voicing it), "Don't touch me. I don't enjoy it." For while baby, appreciative being handled and played with by those he likes, has nothing but fear for those strange people.

FOURTH PARTY AT SUNSHINE CAMP

Eleven Mothers and Thirty-seven Kiddies at Spoke; "At Home" Friday

The Social Service League have now taken their fourth party, consisting of eleven mothers and thirty-seven children, to Sunshine Camp at Saseance. Many regrets are expressed by those whose visit is over. Every cottage is filled to capacity. Bathing is one of the big attractions, and the pile of sand for the little tots is more than ever worked.

The camp is well named "Sunshine," with all the glorious sunshine, laving, cooling fresh air, and the beautiful natural surroundings. These are joys which many mothers and children are privileged to partake of, owing to the

FASHION PLAQUE

A most distinctive evening dress seen at a fashionable gathering in Southampton was made of yellow lace encrusted with scattered motifs of yellow sequins.

"Dull, sallow, muddy-looking skin?"

you are using the wrong soap"

Francis ECHTEN of BUDAPEST
Beauty Specialist
of renown

"You should wash the face twice a day with Palmolive Soap and water."

Editha ferreps
AUBREY, UT 28, BUDAPEST

The valuable cosmetic oils in Palmolive Soap protect the skin against the constant use of make-up and the countless abuses of modern life. It is nature's safeguard... a beauty recipe perfected after more than 120 years of soap study.

Echten—beauty adviser at the Royal Opera

Francis Echten and his son, Francis, Junior, attend the famous opera stars of Budapest daily. They have, likewise, a social clientele that is more than distinguished. Yet the complexion treatment for home use is the same simple, easy treatment advised by more than 23,720 other beauticians all over the world.

No soap ever had such universal professional endorsement. No beauty treatment was ever so popular as the Palmolive treatment. Millions of lovely women owe their freshness of complexion to this vegetable oil soap. They consult their beauty experts regularly, of course. But they do not fail—at the same time—to follow the advice given by those experts.

What these cosmetic oils do

The skin must be conditioned to meet weather, make-up, all sorts of abuses of daily modern life. The vegetable oils of palm and olives make a lather which is safe, gentle, effective.

Palmolive owes its natural green color to these oils alone. It contains no other fats... no heavy perfumes.

Once you use it, you'll appreciate the enthusiasm of the world's great beauty experts. You'll see why they warn against the use of ordinary soaps... why they regard Palmolive as the best protection against a dull, sallow, muddy-looking skin.

NABOB TEA

DID YOU SEE IT?

THOUSANDS enjoyed the trip to India with the Nabob camera man last week. In a few brief minutes they were whisked away to the great tea gardens of Ceylon and Assam and then back again to Canada to see the care with which Nabob Tea is blended and packed. To them Nabob Tea will always be the more delightful because they now know something of its romance. They not only know it is delicious, but they know why it is.

This interesting film is now being shown in EDMONTON.

Jack's mother has a rival now!

"Jack always says that his mother is the only one who can make real corned beef and cabbage. Just for fun I'll try my hand at making some," thought Jack.

She cut cooked cabbage through and through, piled it in a mound in centre of hot dish and placed the corned beef in the centre, saving some of the gravy without meat to pour over cabbage.

"Now, if that TASTES as delicious as it looks," thought Jack, "I'm going to get a surprise." (P.S. Jack isn't quite convinced yet that his mother didn't make it... it was so delicious.)

According to the dictionary the word "good" means "something having excellent qualities"—Clark's Corned Beef is made from the finest ingredients, cooked with expert care, and priced at a reasonable figure.

... It must be GOOD!

Classy Entry For Canadian Bicycle Championships Here

Harold Davies, Winner Of Canadian Board Title To Head Vancouver Squad

Brilliant Rider Who Captured Dominion Championship at Montreal Last Sunday to Compete in Title Events in Victoria on August 1 and 2; Jim Davies and Other Crack Mainland Cyclists Send in Their Entries.

TWENTY-FIVE-MILE RACE WILL BE STAGED AROUND BEACON HILL

Elimination Heats Will Be Staged at Royal Athletic Park Friday Afternoon; Cream of Victoria Riders Will Attempt to Bring Titles to This City; Keen Competition Looked For.

One of the finest fields that has ever competed in a bicycle meet in Victoria will be on hand for the Canadian dirt track championship races to be held here under the auspices of the Victoria Cycling Club on August 1 and 2, according to the list of entries released this morning by Geo. W. Robinson, secretary of the local organization. Besides a large local entry all the crack Vancouver riders have sent in their forms and when the list is closed to-morrow night a record entry is promised.

BAYS AND C'S SCORE LEAGUE CRICKET WINS

Hudson's Bay Take Second Half Lead By Defeating St. Aidan's
C's Outscore T. and V's Easily at Mount Tormie; Galt Hits Up 67

Outscoring St. Aidan's, first half champions, by 152 to 123, Hudson's Bay cricketers went into the lead in the second half schedule of the Wednesday League yesterday afternoon. Oakman, Shrimpton and Hanson provided the batting features for the winners, the first named being high man for the day, just one run short of his half century. Sparks took six Bay wickets. St. Aidan's were dismissed rather cheaply. With the exception of Sparks, Brown and Little. The whole side was out for a total of 20 runs less than that of their opponents. Hanson captured five wickets for 44 runs.

Five C's bettered their position in the other league fixture played at Mount Tormie by defeating the T. & V's by six wickets in a game that was featured by the fine innings of Galt, who knocked up a sparkling 67 for the churchmen. T. & V's were all out for 108 and the C's soon scored this total with the loss of six wickets.

Body of Harmon Lies in State At Big Stadium

Chicago, July 24.—Paddy Harmon made his last visit to the Chicago Stadium, his stadium, to-day. Fulfilling his last request before he died Tuesday of injuries suffered in an automobile accident, the body of the man who dreamed and built the \$7,000,000 sports arena on Chicago's west side, to-day was taken there to lie in state until the funeral Saturday.

Old Country Cricket

London, July 24.—The cricket match between Australia and the County of Durham, which was to have been staged at Sunderland, was yesterday a victim of the rain storms which have visited the North of England. Not a ball could be bowled and the game was abandoned. No start could be made in the following matches: Yorkshire vs. Northamptonshire, at Harrogate; Warwickshire vs. Middlesex at Birmingham; Leicestershire vs. Glamorgan at Leicester.

Tilden Meets Borotra And Lott Plays Cochet In Opening Net Matches

Paris, July 24.—William T. Tilden of the United States and Jean Borotra of France will dispute the first Davis Cup singles competition to be held to-morrow at the Roland Garros Stadium. The draw to-day also determined the second match with George Lott of the United States playing Henri Cochet of France.

On Sunday the order will be reversed, Tilden facing Cochet, and Lott engaging Borotra. The draw for the doubles match Saturday will not be made until the result of the first two singles is known to-morrow night. Play will begin to-morrow at 2:15 p.m. (3:15 a.m. Victoria time).

FAVORITE BEATEN IN NET EVENT

Defeat of Herb Davey By Keith Parsons Features Esquimaux Championships
Miss Phillipsen, Favored to Win Women's Title, Advances; Matches Close

Herb Davey, one of the favorites for the men's singles honors in the Esquimaux tennis tournament, met defeat at the hands of Keith Parsons yesterday evening in a hard-fought three-set match. Davey took the first set at 6-4, but dropped the last two by scores of 6-3, 6-3.

Parsons was relying on a well-placed chop shot to carry him through and Davey's loop drive was very ineffective against the splendid defence put up by Keith Parsons. The second set went to six all on service when Parsons broke through Davey's service and took his own to bring the match even. In the third and final set Parsons was all over the court making splendid returns of what seemed to be impossible gets, and he ran out the set for match at 6-3.

WOMEN'S SINGLES
Miss Northan defeated Miss C. Tindall, 6-0, 6-0.
Miss Elkington defeated Mrs. Erickson, 7-5, 6-3, 7-5.
Miss Dunn defeated Miss Stevens, 6-4, 2-6, 6-3.
Miss Phillipsen defeated Miss Boyce, 6-2, 6-3.

WOMEN'S DOUBLES
Mrs. Monchton and Mrs. Poynton defeated Miss C. Tindall and Miss Ockrane, 6-5, 6-0.
MIXED DOUBLES
Miss Wilson and H. Wright defeated Miss Jackson and J. Matson, 6-11, 6-4, 11-9.

MEN'S SINGLES
Poures defeated P. Warder, 6-4, 6-3.
Parsons defeated H. Davey, 4-6, 8-6, 6-4.
Porter defeated A. Wright, 8-6, 6-3, 6-4.

MEN'S DOUBLES
McQuade and Simpson defeated E. Clarke and McVane, 7-5, 6-4.
Temple and Peers defeated Poures and Monchton, 6-3, 6-3.

Advance Guard of Athletes Arrive For Empire Games

Australian and New Zealand Teams Given Rousing Welcome Upon Arrival at Hamilton; M. Robinson, Chairman of Games Committee, Tells of Great Enthusiasm Being Shown Over Approaching Sports; Bob Pearce, Olympic Sculling Champion, Works Out on Hamilton Bay.

Hamilton, Ont., July 24.—The advance guard of about 2,000 athletes who will gather here from now until August 16 to prepare for participation in the British Empire games, arrived here when the Australian and New Zealand athletes completed their long journey from "down under." The delegation from the far-flung dominions repaired to their quarters at the Prince of Wales School, being guests at luncheon after they had been settled.

The teams were accorded a brief reception at the station, where they were met by Alderman Wright, chairman of civic reception committee, and the executive committee, and the executive of the Hamilton Olympic, while at the City Hall, where they were taken in a parade, Mayor Peabody and others extended a more ceremonious welcome.

Mayor Peabody expressed the thought that the welcome was more than a matter of courtesy. He stressed the fact that the Empire games were sure to be successful, and that competition did not count for as much as the purpose that would be served in creating better feeling.

M. Robinson, chairman of the British Empire Games Committee of Hamilton, and the man behind the entire project, greeted the teams on behalf of the B.E.G. Association. It was a source of deep gratification to see the teams in the city, he said, because it meant realization of a dream first visioned in Amsterdam two years ago, when the subject of such a set of games was first mooted.

LOTS OF ENTHUSIASM
Mr. Robinson also expressed the hope that the teams would return home with the idea that Hamilton had done something to help the British spirit. He stressed the enthusiasm of all parts of the Empire, saying that England was sending a team of 150 and that the field for the next games in 1934.

POLO STAR

IS INJURED

Earle A. S. Hopping, Candidate For U.S. "Big Four," Thrown From Horse

Locust Valley, N.Y., July 24.—America's polo forces, with their captain, Tommy Hitchcock, just returning to action after a fortnight's layoff due to an injured side, suffered further mishap yesterday when Earle A. S. Hopping, star young candidate for the 1930 international "Big Four," was thrown and painfully cut and bruised in the second of the test matches at the Piping Rock club.

Riding at No. 2 on Hitchcock's "whites," Hopping had just scored a goal, putting his side into a 3-0 lead, when his pony stumbled and fell in being pulled up sharply to cut back of another player. The tumble was facilitated by the fore legs of Hopping's pony becoming entangled with the hind legs of the mount ridden by J. C. Rathborne, former Yale star, riding at back for the "reds."

As if propelled from a catapult, Hopping was thrown clear of the saddle and slid fully ten yards along the turf on the left side of his face and shoulder.

NO SERIOUS DAMAGE
Rathborne escaped the mix-up without falling, but Hopping lay unconscious on the turf. After being given first aid, he was taken to the clubhouse. There a thorough examination by physicians revealed no serious damage.

The accident to young Hopping, occurring near the close of the second period, necessitated a shake-up in the line-ups and resulted in the contest being turned into a rout by Hitchcock's "whites." They led by 7 to 1 at half time and won 13 to 7.

Hitchcock, playing No. 3, was easily the outstanding star of the game, as he returned to the saddle to give one of his characteristic exhibitions of superb strategy and stroking. He scored six of his side's goals.

Don Bradman May Not Be Able To Compete in Test
London, July 24.—The usual cricket test match eve casualty was reported yesterday. It is Don Bradman, Australia's prolific batsman, who has been suffering from stomach trouble since his visit to Glasgow. While he may be able to play, his doctors fear he may not be in top form for the opening of the Australia-England match Friday at Manchester.

TO PLAY HERE
The five pitchers named have shown wonderful promise in their first year. Mahaffey's average is the best, and of course it must be remembered that he is hurrying for a championship club. Benny Frey has maintained a .500 average with a tail-end team. Heving has not had as many chances as Frey or Mahaffey but he has shown a lot of nice stuff and control. Of the thirteen players and pitchers, seven are National League players and six are American League players.

FRANK GOVE
Of Berkeley, Calif., one of the southern tennis stars who will play in the British Columbia lawn tennis championships, to be held next week on the courts of the Victoria Lawn Tennis Club. Gove is no stranger to Victoria fans, having played in the tournament here last year.

HONOLULU ENTRY FOR TIMES JUNIOR SWIM TO GORGE SATURDAY
From the sunny beaches of Hawaii comes a contestant for The Times Through-Victoria Junior swim on Saturday. It was revealed in an entry form sent to the Sports Editor to-day.

It was filed by Ronald Hawaii Row, at present staying at Cordova Bay, a member of the Punahele Club, Honolulu, Hawaii. For some time he has been going to college in the land of the pineapple and guitar and is counted a good swimmer.

Whether or not he will be able to stand the cold water here remains to be seen. At all events his entrance into the competition adds to the color of the field, and gives an international flavor.

All preparations have been made for the two events and competitors are reported to be in good condition for the races. Swimmers are again reminded that they must have their own pilot boats and pilots for the events.

THE SPORTS MIRROR

A NUMBER of upstarts from the tall and uncultured are doing quite a lot of major league ball playing this year. One glance at the batting and pitching averages show their names with pretty imposing marks after them. The rookie crop not only has been good this year, but the harvest seems to be placed where it will do the most good—namely in the case of Walter Berger and Tom Oliver, the young men whose booming bludgeons have set lowly Boston agog.

There are enough new ball players who are playing regularly in the two major leagues this season to form a team, and no body's set-up at that. Here is a line-up, with recent batting marks for the players and recent figures on the pitchers:

Tom Oliver, Boston Red Sox, cf. .321; Ben Chapman, New York Yankees, 2b. .308; Smead Jolley, Chicago White Sox, rf. .332; Walter Berger, Boston Braves, lf. .316; Jack Sherlock, Philadelphia Nationals, 1b. .356; Mickey Flinn, Brooklyn Robins, 2b. .336; Buster Chatham, Boston Braves, ss. .333 and Al Lopez, Brooklyn, c. .314. And here are the pitchers: Clint Brown, Cleveland, won 7 lost 7; Benny Frey, Cincinnati, won 6 lost 6; Cecil Casaway, Chicago White Sox, won 2 lost 1; Lee Mahaffey, Philadelphia Athletics, won 6 lost 2; Joe Sieving, New York Giants, won 2 lost 2.

Two National League teams have benefited vastly by new faces in the line-up this year, the Boston Braves and Brooklyn Dodgers. Berger and Chatham have brought the Braves to the Pacific Coast League, and Berger is running block William's neck-and-neck battle for home run honors. This is the Braves' first year out of the cellar in quite a few, and there isn't a doubt in the world these young men have had a great deal to do with it.

Brooklyn, too, has profited with rookies, especially with Lopez, the young catcher from Florida. Uncle Robbie brought the young man out of the Southern League where he caught for Atlanta last year. Mickey Flinn, brought from the Pacific Coast with Gordon Slade, has proved a sensation in a Brooklyn uniform, though competition for the second base position has been hot with Jake Flowers.

Chapman has been hitting a hot pace at third for the New York Yankees, after coming from the American Association with Dusty Cooke. Jolley of the Chicago White Sox, though a veteran minor leaguer, is doing well. He started his baseball life as a pitcher in Mississippi, later going to Texas and the Coast League. In four years' playing for San Francisco he made 150 home runs, and his batting average was .346, .397, .404 and .385. Sherlock is another of the fence-busters gathered from the Coast League by the Phillies.

The five pitchers named have shown wonderful promise in their first year. Mahaffey's average is the best, and of course it must be remembered that he is hurrying for a championship club. Benny Frey has maintained a .500 average with a tail-end team. Heving has not had as many chances as Frey or Mahaffey but he has shown a lot of nice stuff and control. Of the thirteen players and pitchers, seven are National League players and six are American League players.

With the death on Tuesday of Patrick T. "Paddy" Harmon, the world lost a sports promoter nearly as famous as the late Tex Rickard. Harmon rose from a corner newspaper boy to builder of the \$7,000,000 Chicago Stadium, largest indoor sports arena in North America.

Harmon started a promotional career at the age of sixteen by opening a Sunday night dancing establishment. Then he became a pioneer in roller skating rinks, later he promoted the first six-day bicycle race ever held in Chicago. He continued to stage the six-day grinds annually. When Harmon conceived the dream of the stadium, it required seven years to achieve his objective. He was frequently hampered but nevertheless drove his project to completion.

Harmon was ousted from the presidency of the management of the stadium six months after it was opened, because the board decided his management was responsible for several failures of sport events which had been counted upon to produce profits. Although best known as a sports promoter Harmon was thousands of friends through his activities each Christmas as Santa Claus to the poor of Chicago.

McDUFFER OF THE MISSAUFETTA GOLF CLUB

BY BARRIE PAYNE
"Pro Sandy regards golf as a religion and hates people who play it just for exercise and amusement." He says this club has two kinds of members: Those who play golf for the exercise and those who play golf.

Both men and women golfers will gather at the Crystal Garden at 3 o'clock Saturday before going to their respective changing rooms to don their suits for the events.

At 3:30 o'clock they will be lined up on the float and will take the plunge at the starter's "Go!"

Two Veterans Pass From Picture In Western Golf

Tolley and Evans Both Defeated In Close Struggles

Giant Briton Succumbs to Bob McGrory, Trans-Mississippi Champion One Up; Evans Beaten by Youthful Charlie Fish on Nineteenth Green; Latter Sinks Thirty-five-foot Putt for Victory; Champion Don Moe Advances; Portlander Meets College Star To-day.

Canadian Press

Chicago, July 24.—Johnny Lehman, one of the prize products of college golf, blocked the march of Don Moe, the youthful champion from Portland, Oregon, toward another western amateur title as the struggle for the crown went into the quarter-final round over the rugged Beverly Country Club course to-day.

The methodical shot maker, co-medalist, former big ten champion and one of the best golfers in the Chicago district, faced the king of western amateurs in a long stretch of 36 holes, and while Moe ranked as a slight favorite, the match generally was ranked as a toss up battle.

Of the two, Lehman was far more impressive in the early flights, he defeated two very capable golfers, Lloyd Nordstrom of Davenport, Iowa, and George Dawson, Chicago star, with almost perfect golf yesterday, while Moe, off his game since his return from an invasion of England with the Walker Cup team, weathered the first two tests with poorer golf against more inexperienced foes—Vincent Huntington, Chicago, and Johnny Howard of Kalamazoo, Mich.

TOLLEY BEATEN
As the quarter-final round opened to-day all the favorites with two glaring exceptions remained in the fight. The two who were upset were Cyril Tolley of Great Britain and Charles "Chick" Evans. Tolley fell before Bob McGrory, Trans-Mississippi champion from Des Moines, Iowa, one up, while Evans was eliminated by the youthful Charlie Fish of Rockford, Ill., by the same margin on the nineteenth green.

England had one big punch left, however, in T. Phillip Fildes, former British amateur champion now residing in New York. Perkins loomed as a big favorite yesterday by shooting even better golf than Lehman to win the most top-sided victory of the two early rounds—a 6 and 5 victory over Freddy Lyon, Chicago, western junior champion, and an 8 to 7 rout over Barry Berry Hill of Colorado Springs, Colo. The methodical Briton appeared to be very much on the game that made him famous on the other side of the Atlantic.

WORTHY RIVAL

Perkins had a worthy rival to-day in Jack Westland, Chicago district champion, who entered the quarter-finals with a victory over the veteran Rudy Knepper of Chicago yesterday. Perkins, Westland, Moe and Lehman were in the upper and stronger brackets. In the lower bracket to-day, Fish faced Ira Couch, another Chicago star, who was favored to defeat him, while McGrory faced a monumental rival in Gus Novotny of Chicago, who eliminated Kiefer Cade, former champion from Oklahoma City, yesterday. All matches from to-day on were 36 hole affairs with the championship final billed for Saturday.

Al Brown Winner By a Decision

New York, July 24.—"Panama" Al Brown, generally recognized as the world's bantamweight champion, pounded out a ten-round decision over Domenico Bernasconi, of Italy, at Ebbets Field yesterday evening. Both fighters weighed 123½ pounds.

RICHEST OF ALL RACES

By JIMMY THOMPSON

One hundred thousand dollars is the winner's purse at the next Agua Caliente Handicap, the richest race in the world for thoroughbred horses. When the horses face the barrier next March it will mark the second time this Mexican classic has been run. Not only, however, does the winner receive a fortune but also second, third and fourth make handsome returns. The owner of the horse finishing second will receive \$10,000, third \$5,000 and fourth \$2,500. The distance of this classic will remain the same as before, one mile and a quarter. It is apparently the aim of the officials of this track to keep the handicap the richest of all races in the world. Nomination, declaration and starting fees are, it is said, certain to make first money far in excess of the original purse of \$100,000. The nearest rival now is the Belmont Futurity, which while only a percent of \$25,000 added, attains a high value through the accumulation of entrance and declaration fees over a protracted period of time. Since money is apparently the deciding factor or at least seems it is, the Mexican track officials believe that this will keep the track always in number one position so far as race tracks of the world are concerned.

Bradshaw Harrison And Mrs. Gross In Brilliant Comeback

Stage One of the Greatest Recoveries Ever Seen in Vancouver to Defeat Muriel Munro and Dunc Williams in Western Canada Tennis Championships; Hocking and Edwards Lose to Harrison and Hoogs; Other Victoria Pairs Also Suffer Defeat.

Vancouver, July 24.—One set down and with the score 4-5 and 0-4 against them in the second set, Bradshaw Harrison and Mrs. Gross Wednesday afternoon staged one of the most remarkable recoveries seen in a tennis match in Vancouver in several years, when they took the tenth game on Harrison's service to square the match at 5-5 with Muriel Munro and Dunc Williams of the Vancouver club.

SOFTBALL

In the final game to decide the championship of "B" section of the Victoria and District Softball League the V.M. "B" and Navy "A" will meet at the Central Park, upper diamond, to-morrow night at 8:30 o'clock. This is the third game of the series, each team having one victory to its credit. On Monday night at the same grounds the Braves and Hustlers will meet at 8:30 o'clock in the final game to decide the championship of "D" section. Stock and Saxton will be the umpires.

EAGLES PLAY GOOD BALL TO BEAT JOKERS

Turn in Fine Exhibition Behind Pitching of Bill Holness For 14 to 2 Win

Feathered Tribe Hit Donaldson and Stickney Hard; Nex in Hitting Form

Turning in their best exhibition this season behind the steady pitching of young Bill Holness the Eagles again surprised in the Senior League ball game at the Royal Athletic Park yesterday evening by taking the Jokers into camp by a 14 to 2 score. Holness held the Jokers to six scattered hits, while his teammates backed him up in pinches.

The Eagles were in a hitting mood, collecting a total of eighteen hits off the combined offerings of Dave Donaldson and Wes Stickney. Twelve hits and eight runs were gathered on the Royal Athletic Park yesterday evening by taking the Jokers into camp by a 14 to 2 score. Holness held the Jokers to six scattered hits, while his teammates backed him up in pinches.

EAGLES GO AHEAD
With the score deadlocked at 1-1 the Eagles went out in front in the third inning by scoring four runners, and from that stage on they were always in front, scoring two more runs in the fourth, four in the fifth, and three in the sixth. The Jokers scored their first in the fifth.

One of the features of the game was the hitting of Bert Nex, the Eagles' catcher, who crashed out four hits in as many trips to the plate. The box score follows:

	A	B	R	H	O	A	E
Love, 2b.....	1	1	1	1	1	1	1

FRED RICHARDSON LEADS MARKSMEN WITH FINE SCORE

Veteran Passes Century Mark at Heals in Midweek Shoot; Ashe Next Best

Major Fred Richardson again led the midweek marksmen at Heals yesterday, scoring a fine 101 over the three standard distances. Weather conditions were better than usual average, and the scores higher. Sgt. A. E. Ashe also scoring a century, and Lieut. D. Pyrie 98. Major Richardson started off in sensational manner by scoring a possible at the 200-yard range and followed this up with a snappy 94 at the 300-yard distance, but slipped to 93 at the last range.

A Long Shot
Major: I've put your dress shirt on the clothes horse.
Horse: What odds did you get?
Major: Now, in getting the meal, what is the first and most important thing?
Class (in chorus): Find the can-opener.

Veteran Pitchers Show Youngsters How In Big Time

Five Aging Moundsmen Toiled in Two Leagues Yesterday and All Turned in Good Performances; Brooklyn Gains on Chicago by Victory Over St. Louis; Cubs Take One on Nose From New York; Pie Traynor's Pair of Home Runs Win Two Games for Pittsburgh.

Whoever it was that said "youth must be served" probably would be inclined to retract that statement. He should look at the major league box scores these days. Five moundsmen, whose combined ages total approximately 200 years, were sent out to toil yesterday and while only one pitched a complete game, nearly all of them turned in good performances. Adolfo Luque, aged thirty-nine, did a great job as he made first place in the National League safe for Brooklyn Robins. Luque held the St. Louis Cardinals to five hits, while Brooklyn slowly gathered enough momentum to win, 4 to 1.

The Robins' gain was made possible by their neighbors, the New York Giants, who downed the Chicago Cubs 8 to 6, to put Brooklyn a full game plus a few odd points in the lead. Along with Luque, ancient Jac Quinn, of the Philadelphia Athletics, whose years number somewhere near forty-five, gave the younger pitchers a lesson. Quinn had a little trouble in the ninth inning and George Barnhart finished the game for him as the A's defeated Detroit, 4 to 1.

Urban "Red" Faber, second in age to Quinn in this quintet, did not figure as a winner or loser for the Chicago White Sox. After holding a 1 to 0 lead for five frames, Faber weakened and allowed the Boston Red Sox three runs in the sixth. Hal McKinnis relieved him and got credit for the victory as Chicago rallied again and gained a 5 to 3 decision. The victory moved Chicago back into sixth place as Washington pulled out a 10 to 6 victory over St. Louis Browns in eleven innings.

RALLY TO WIN
Another youngster of thirty-nine years, Eppa Rixey, was given the task of trying to put the Cincinnati Reds ahead of the Boston Braves at the start of yesterday's double-header. He had a bad inning and was behind when Steele, 1b..... took over for a pinch hitter in the eighth. Silas Johnson was credited with the victory as Cincinnati rallied in the ninth to win 8 to 7. The Braves took the second game, 4 to 3, in eleven innings. Herb Pennock, age thirty-six, had a rough time against Cleveland and the Indians won 10 to 6.

The Phillies and Pittsburgh used pitchers of almost every kind as the Pirates won two games through Pie Traynor's two home runs. Traynor's first four-bagger gave Pittsburgh a 4 to 1 win in the third game, while in the second, coming with two on base in the thirteenth inning, put the Pirates on the long end of a 16 to 15 count.

AMERICAN LEAGUE
Cleveland, July 24.—The Indians rallied for five runs in the eighth inning yesterday, getting six hits off three Yankee pitchers and won the series final 16 to 15. Cleveland won four of the five games.

New York, July 24.—The White Sox made it three out of five in their series with Boston, taking the final yesterday, 8 to 3. Red Faber gave the Red Sox only four hits in six innings when he retired for a pinch batsman. Hal McKinnis finished the game, 8 to 3.

Detroit, July 24.—Detroit lost the series final to Philadelphia yesterday, 4 to 1. Quinn and Barnhart holding the Tigers to five hits, 4 to 1. Philadelphia won four of the five games.

St. Louis, July 24.—The Washington Senators defeated the Browns, 10 to 7, here yesterday afternoon in an eleven-inning game. It was the only Senator victory in a four game series.

NATIONAL LEAGUE
Brooklyn, July 24.—Adolfo Luque held the St. Louis Cardinals to five hits yesterday to gain a 4-1 decision in a pitching battle over Sylvester Johnson. Three of the Brooklyn runs were scored in the seventh and eighth innings.

New York, July 25.—The Giants took the odd game of the series from Chicago yesterday, 4 to 3, scoring four runs in the fifth inning through the wildness of the Cub pitchers. The defeat sent Chicago one game behind the Brooklyn Robins who won.

COAST LEAGUE
At San Francisco—R. H. E.
Oakland..... 3 9 1
San Francisco..... 1 3 1
Batteries—Coughland and Lombardi; McCullough and Carson.

OPEN TUNNEL FROM CANADA TO U.S.

In this picture, taken seventy-eight feet below the level of the Detroit River, officials of Windsor, Ontario, and Detroit are shown at the opening of the new highway tunnel that connects Canada and the United States. Councilman John Nagel of Detroit, is greeting Mayor Cecil Jackson of Windsor as he steps through the hole made in the last bulkhead that had separated the two ends. This is the only tunnel in the world that connects two nations.

STEWART CLARK ELECTED HEAD OF FIRE AGENTS

Victoria District Fire Insurance Agents' Association Holds Annual Meeting

Committee to Consider the Feasibility of Amalgamating Fire and Auto Agents

Stewart G. Clark of Branson, Brown and Co. was elected president of the Victoria District Fire Insurance Agents' Association at the annual meeting of the Association held yesterday afternoon in the board room of the Belmont Building. J. L. Mara of Mara, Jones and Co. will be vice-president for the 1930-31 session and F. F. Patt will carry on the duties of secretary-treasurer for the eleventh successive year.

Nearly thirty members of the Association were present when Fred Waller, the retiring president, opened the meeting. The president's and secretary's reports were read and adopted and the members listened to a short

visiting his parents at Long Harbor, Salt Spring Island for a week, has left for his home in Seattle.

Mrs. T. Isherwood and her son Madison, returned on Saturday to their home at Bowser, Horn Lake, traveling via Nanaimo, after spending a week at Fulford, the guests of Mrs. Chesley.

William Johnston of the Divide returned on Monday from a visit to friends in Vancouver. Mr. and Mrs. L. Chaplin and Miss Joan Chaplin of Vesuvius Bay, have joined Mrs. Osenham's summer camp at Riversdale for ten days.

The Truth About Emigration

By R. J. DEACONMAN

Speaking in Quebec on Saturday night, Mr. Bennett said: "For each month of 1930, 5,000 of our people have gone to the United States and during the same time according to their records, there came back 678 altogether. That statement is not fair. It is not honest. It is not true."

Mr. Bennett made it to a large audience—it must have been heard, by thousands over the radio. If he did not know it was unfair, he should have known. Mr. Bennett ought to apologize for having made it.

Anyone who has ever gone to the United States knows that Canadian officials take no record whatever of those who are leaving this country. When you enter the United States you are met by an immigration officer of the United States who asks you whether you intend to remain in the United States—or if you are a casual visitor. Therefore the American government has a record of those going to that country from Canada, and from the American government figures Mr. Bennett took the statement telling of the number of Canadians entering the United States.

ENTERING CANADA
Anyone who has ever crossed the border from the United States to Canada knows that in the circumstances similar conditions prevail. No record is taken by American officials of the fact that you are leaving the United States and going to Canada. Canadian officials ask you questions—your nationality, where you are going and how long you intend to stay.

In order to place before an audience the figures showing the migration to the United States and the counter movement from the United States to Canada it is necessary to have the figures from both countries. The record of Canadians moving to the United States comes from the American government—the record of those moving from that country to Canada must come from Canadian government officials. There is no other available record.

THE UNFAIRNESS OF THE BENNETT METHOD
In his Quebec speech Mr. Bennett did not do this.

He told only one side of the question. He told of the number of Canadians going to the United States.

He told as little as he could possibly tell of the number coming from the United States to Canada. Telling both sides of the story would have revealed the whole truth and would have left absolutely no story to tell. Mr. Bennett told only one side and let it go at that because he sought by that means to leave a wrong impression on the mind of his audience.

Mr. Bennett said in his speech in

address by H. G. M. Wilson, manager of the Automobile Branch of B.C.I.U.A., dealing principally with the feasibility of joining the fire and automobile insurance agents of Victoria in a single body.

After a certain amount of discussion along the lines of Mr. Wilson's address the meeting passed a motion to the effect that, "an automobile insurance agents' association be formed and that the committee elected to-day be appointed to arrange matters provisionally and report." The committee referred to was the executive for the coming year consisting of: Charles R. Bishop of Bishop and Worthington; D. W. Campbell of the Cameron Investment Co.; Frank Jordan of the B.C. Land; Tom Brown of P. R. Brown and Sons; and S. Clegg of Pemberton and Sons.

The president's report sketched the work done during the past year, including the joint reports of the executives of the agents' association in the cities of Vancouver, Victoria, New Westminster and Nanaimo; the Fire Prevention week sponsored by the Association, the Resident Agents Law and the rates in each city. The association was in a very healthy financial state, according to the report of F. F. Patt, who stated that the membership was the same as last year—namely 53. Votes of thanks were passed on the work done by the officers during the past year.

The association will hold its annual banquet and golf tournament at the Colwood Golf Club next Friday.

SHARPERS REVIVE OLD SWITCH GAME

And Modern Generation Falls Hard For It; Police Find Many Victims

New York, July 24.—The sudden and widespread return of the ancient "switch game," a swindle so old that to the modern generation it is now once more, recently brought to two more men, both negroes, to court on charges of attempted grand larceny. They were held in \$1,500 bail each by Magistrate Gottlieb in Yorkville Court.

on complaint of a third negro who said they tried to induce him to give up \$200 in good greenbacks—a security for a "large roll" that was to have been entrusted to his care. The large roll developed to have consisted of a \$1 bill and much neatly cut newspaper.

Meanwhile a dozen persons—figured once by the same game, called at the East 87th Street Police Station with copies of a previous issue of The World in which appeared an account of how another pair of alleged swindlers had been held in \$5,000 bail Saturday.

From the story's description of the men and their manner of operation, the dozen called detectives they were certain they had been victims of the same pair, Temistocle Preppoli, a Detroit waiter, and Jacob Dolich, a cook, at No. 503 West 23d Street.

The negroes arrested yesterday described themselves as Edward Carter, twenty-three, a waiter of No. 230 West 167th Street, and Charles Jones, thirty-five, a barber, of No. 101 West 141st Street.

Carter, in shabby working clothes, although twenty-two suits were found in his home, is said to have approached Charles Napper of No. 117 West 190th Street Saturday afternoon at 28th and Fourth Avenue and told of just coming here from Virginia. He said he had a "large roll" and was looking for a place to keep it.

Napper suggested banking it, but Carter said he didn't trust banks and was willing to put it in the care of Napper. But in order to have a guaranty of Napper's honesty, Carter is alleged to have suggested that Napper draw \$200 from his own bank account and leave it with him. Jones sauntered

along at this time and, stopped by Carter, announced the proposition emphatically fair.

Pretending he would go through with it, Napper waited until a patrolman approached and then had the pair arrested. Records show Carter once

served a sentence on the same charge. Jones, although twice arrested, never was convicted.

George II was the last English king to take an active part in a military campaign.

SUMMER DAYS

the call of the Camp

Out of bed with a bounce at sunrise... a plunge in the cool sparkling stream... a brisk rub-down then... breakfast... fresh caught fish or sizzling bacon, the tang of coffee and toast that melts in the mouth... Ah... camp is the place to enjoy good, wholesome food and 4X Dairy Bread certainly satisfies. It has the right flavor for toast or sandwiches, builds healthy energy and keeps fresh longer because it is made with milk for the entire wetting of the dough.

Canada Getting More U.S. Gold

New York, July 24.—Because the Canadian dollar stands higher in value in world exchange than the United States dollar in the present depression, New York continues to ship gold to Canada to balance exchange.

Consolidated Moves Fast At Big Missouri

Stewart, B.C., July 24.—It is now definitely established that plans of the Consolidated Mining & Smelting Company call for immediate construction of a pilot mill at their Big Missouri property, but whether or not the Riverside mill will be purchased still remains a matter of conjecture. The Stewart News says, "Naturally, many rumors are rife, but the fact of the matter is that local owners of the Riverside were asked to place a price on their mill, did so, and have so far received no reply from the Consolidated."

M. M. O'Brien, Pacific Coast manager for the big smelting company, arrived in Stewart last Tuesday morning in company with S. Grey and H. Scharrer, construction engineers and all three immediately proceeded to the Big Missouri. It is understood that W. M. Archibald will also be in the district shortly.

TRANSFER COMPANY IS BUSY

No better evidence of the new activity in the Salmon River section is wanting than the fact that the Crawford Transfer Company is rounding up all their stray cayuses from the flats and is putting them into the freight line up the Salmon. They will have five six-horse freight wagons on the road to Big Missouri; freight will be taken by truck as far as the Bush-Cobalt, and from that point will be taken in by team. A barn is being constructed at the half-way which will accommodate eighteen head. Material for the construction of the Big Missouri mill will be rushed as soon as ready; lumber is already being taken up, and the teams will be kept busy for some considerable time.

C. AND E. LANDS SHOWS HALF-YEAR GAIN OVER 1929

Col. L. D. M. Baxter, field manager for Calgary and Edmonton Corp., in his latest progress report on the company's lease, received through Miller, Court and Company, states all indications at the present time point to a considerable increase in the 1930 production over that of 1929, the first six months showing an increase of 174,000 barrels over the first six months of 1929. More than sixteen wells have been added to the list of producers in the Turner Valley since the first of the year, and there are sufficient wells now for drilling at depth to at least increase this number to twenty-five, should a reasonable proportion find production.

In making a comparison of the development programme of 1930 as compared with that of 1929, he continues, one is struck with the increased interest in territory outside of the valley.

Industry Needs Trained Men to Study Its Mental Misfits

By DR. MORRIS FISHER
Everybody knows that certain workers in almost every large plant are labeled by their fellow employees as eccentric, "queer guys," disturbers, misfits, grouches, and as being mean, unsociable or otherwise peculiar. The labels represent a recognition of the fact that the difference between what is considered normal and abnormal among human beings is relatively slight and covers a wide range of personality and mental equipment.

In one plant in which an investigation was made by a psychiatrist, who is a specialist dealing with abnormal minds, it was found that certain department had the greatest turnover of labor of any department in the building. This high percentage of termination was found to be due to a foreman who was distinctly psychopathic.

On the chart in which reasons were given for discharging employees the statement constantly read, "discharged as undesirable," "discharged for incompetence," "discharged for disobedience," or "disagreement with the foreman." When an investigation was made it was found that the foreman obtained his position as a reward for many years of service, that he was arrogant, always had a chip on his shoulder, knew nothing about handling people, and was constantly swearing at and abusing his employees over trivial incidents, which would easily be settled by a more intelligent and diplomatic director.

The incident confirms definitely the need for a study of mental disorders related to industry. In an investigation carried out in a large insurance company it was found that factors inherent in the work, such as monotony, rarely lead to disorders of the nervous system, but that these disorders arise much more frequently due to a difference in ambition of the person concerned and his capacity to accomplish.

In a recent analysis of the progress made in this field, Frederic Wertheim concludes that what is needed is not a specialist in nervous and mental diseases attached to every industry, but recognition of the fact that such problems constantly occur and of the necessity for recognizing difficult cases and referring them to special attention when they are isolated.

The field of the psychologist, who is concerned essentially with the workings of the normal mind, and of the psychiatrist, who is concerned with the abnormal, are distinct. The psychologist in industry may well be assigned the task of determining when it is necessary to have a psychiatric attention.

Stockings will look new longer. If, after the first washing or two, a little mild tan dye is added to the rinse water. This also prevents that pinkish cast so many beige stockings develop.

Eunice Alma Hewitt, 1303 Gladstone Avenue, Victoria, B.C. (5).
Newton Got Over His Longing for the Sea
John Newton wanted to go to sea, but not with his father. His father was master of a ship, and he did not come home very often. He was almost a

stranger to his son, and since he was a quiet, stern man, the boy was afraid of him.
When John was eleven, the father decided to take him to sea with him, so that he might learn what it was like. He made him a cabin boy.
He didn't show him any favors because he was master of the ship. In fact, he treated him very severely, so that the boy was lonely and unhappy during the whole trip. He had thought he would love to be a seaman, but long before the trip was over he was so homesick for his mother he didn't want to go to sea again.
Instead of being a seaman, he became a minister. He is chiefly famous for the beautiful hymns he wrote. He was born in London, July 24, 1725.

DEPARTMENT OF NATIONAL DEFENCE
Construction of Motor Boat, Complete, With
Motor for Use at the Naval Canadian
Air Force Station, Vancouver, B.C.

NOTICE TO CONTRACTORS
Sealed Tenders marked on envelope
"Tender for Motor Boat" and addressed to
the Director of Contracts, Department of
National Defence, Ottawa, will be received
until 12 o'clock noon, daylight saving time,
of Thursday, July 25, 1930, for a Motor
Boat, complete with Motor and all acces-
sories, to be delivered to the Royal Canadian
Air Force Station, Vancouver.

Specification and drawings may be seen
and full particulars obtained on application
to the Officer Commanding, Royal Canadian
Air Force Station, Vancouver, from whom
blank forms of Tender may be procured.
Tenders will not be considered unless
they guarantee completion of the boat. It is
to be understood that the schedule of items
and prices approved by the Department
shall be adhered to.

Tenders must be on the forms supplied by
the Department and must be accompanied
by an Accepted Cheque on a Canadian Char-
tered Bank, payable to the order of the
Minister of National Defence for ten per
cent of the amount of the tender, which
amount will be forfeited if the party tender-
ing declines to enter into or fail, if he be
accepted, to execute the contract in ac-
cordance with his tender.
The Department does not bind itself to
accept the lowest or any tender.
G. J. DESBARATS,
Department of National Defence,
Ottawa, July 24, 1930.
H.Q. 107-124-14

SEALED TENDERS addressed to the under-
signed, and endorsed "Tender for
Wharf, Coal Harbor, B.C." will be received
until 12 o'clock noon (daylight saving),
Wednesday, August 6, 1930, for the con-
struction of a wharf, at Coal Harbor,
Comox-Alberni District, B.C.

Plans and form of contract can be seen
and specifications and forms may be ob-
tained at this Department, at the office of the
District Engineer, Post Office Building,
Victoria, B.C.; Victoria Builders' Exchange,
2509 Prior St., Victoria, B.C.; The Building
Department, at the Coal Harbor, Comox-
Alberni District, B.C.; or at the
Post Office, Qualicum, B.C.

Tenders will not be considered unless
made on printed forms supplied by the De-
partment and in accordance with conditions
contained therein.

Each tender must be accompanied by an
accepted cheque on a chartered bank, pay-
able to the order of the Minister of Public
Works, for ten per cent of the amount of
the tender. Bonds of the Dominion of
Canada or bonds of the Canadian National
Railway Company will also be accepted as
security, or bonds and a cheque if required
to make up an amount of \$10,000.

NOTES - The price can be obtained at
this Department by depositing an accepted
cheque on a chartered bank, for the sum
of the order of the Minister of Public Works,
which will be returned if the intending bid-
der submits a regular bid.

By Order, DESBARATS,
Secretary,
Department of Public Works,
Ottawa, July 10, 1930.

LOCAL GLIDERS
LEAD DOMINION,
SAYS M'BRIEN

"Best in Canada" According
to Canadian Air Chief After
Exhibition

High, Gusty Wind Handicaps
Three Local Pilots But They
Give Great Display

"The best gliding I have yet
seen in Canada," was the comment
of Major-General J. H. MacBrien,
president of the Aviation League of
Canada, after watching exhibition
flights by members of the Victoria
Glider Club at the big field on
Lansdowne Avenue yesterday after-
noon. Despite a high and gusty
wind which hampered gliding con-
siderably, three members of the
club, Ernie Ewe, A. W. "Nick"
Carter and James Gray went aloft
a number of times on the end of
their motor-towed rope and turned
in extremely creditable perfor-
mances.

On fine days the members of the club
have been able to attain a height of
nearly 500 feet but yesterday the
wind held them down to about a third
of that distance. At the same time it
was deemed too risky to indulge in
any spot landings or fancy turns and
the trio contented themselves with
straight gliding and some "kiting." In
this the pilots remain attached to their
towing automobile and attempts to
keep his altitude against the wind.
Yesterday the breeze was a bit too
quarry for complete success but General
MacBrien was much impressed with
the skill displayed by the flyers.

BEST IN DOMINION
The experience and initiative of the
local pilots together with the size of
their landing field has enabled them to
attain heights far above those in-
tempted by any other gliding club in
the Dominion. The maximum altitude
achieved by most of these organizations
throughout the country is not more
than 75 or 100 feet while the local
club experimenting with a longer rope
is in the habit of recording 400 and
500-foot heights.

TWO FINED FOR SELLING LIQUOR
Two fines of \$300 each were imposed
in City Police Court this morning for
illegal selling of liquor.

George Shingles pleaded guilty to an
offence at 705 Pandora Avenue yester-
day evening, a quantity of beer and
other liquor having been seized by the
police.

Bottles of whisky and rum, partly
filled, were seized at 851 Johnson
Street, where police arrested E. Michus.
He pleaded guilty.

Sez Hugh:
A passport, issued in 1927 in Wash-
ington, and other papers showing he
served as a squadron leader in the
British Royal Air Force in the Great War
and had shot down forty-two enemy
planes were found in his clothing by
police. The records were verified by
government officials.

"I realize what I've done," he said.
"I know why I'm under arrest. I don't
know why I did it."

Psychiatrists asked that Capt. Clif-
ford be paroled to them for study.

Papers showed the man was a Cana-
dian with a war record listed at
London. Medals for bravery from virtually
every Allied nation were found in his
apartment.

He said he had come here from
Brookton, Mass., seeking work as an
aviator.

DRAWS WARM PRAISE FROM AIR CHIEF

Above is shown the machine of the Victoria Gliding Club at its home on
Lansdowne Road. Standing in front of the glider is Ernest Ewe, one of the
three pilots whose flying received enthusiastic praise from Major-General
J. H. MacBrien yesterday. On the right are seen A. G. Bolton and Evan
Manbury, two members of the club.

PHASANTS FOR NORTH ROUTE
VICTORIA PARK FOR PLAYS
IS SURVEYED

Four Pairs of Birds to Arrive
To-night For Beacon Hill

Four pairs of fine pheasants for
Victoria's steadily growing animal and
bird enclosure at Beacon Hill Park are
expected here this evening aboard the
steamer Ruth Alexander.

The birds are the gift of Thomas I.
Worthington, a former Victorian and
brother to Alderman John Worthington,
chairman of the parks committee.

They are valued at \$100, and have been
sent from the Catalina Island bird
sanctuary.

The gift includes one pair of Mel-
lards, one pair of Golden-crowns, one
pair of Amherst and one pair of Gold-
scented pheasants.

Park officials have been busy pre-
paring for the new arrivals during the
week and have new pens ready for
them.

At the same time he predicted that
valuable as this connection would be
in the Empire scheme of things, a great
portion of the air traffic between the
United States and Europe might have
to traverse the same route.

"With these great schemes under-
way," he declared, "you may see avia-
tion is beyond the experimental stage
and that great things are in store."

Gen. MacBrien spoke of the trial
flight of the R-100 which will soon
take off from England for this country,
as forging another link in the aerial
change around the British Empire.

"The purpose of the Aviation League
of Canada is to bring about as far as
possible and yet in a well-organized
way, the development of aerial trans-
portation," Gen. MacBrien declared.

"We are living in a flying age," he
said, "and while wonderful progress
has already been made in aircraft con-
struction, even greater progress will be
made in future years."

Aircraft, the speaker declared, would
develop Canada's great northlands more
than a hundred years earlier than
would otherwise have been the case.

TO-DAY'S
BASEBALL

Detroit, July 24 - Babe Ruth hit his
thirty-sixth home run, of the season
to-day in the eighth inning of the
Baltimore game.

The bases were empty and Guy
Cantrell, Tiger recruit, was on the
mound. The homer gave New York
a 4-3 lead.

N. THOMPSON
SHOOTSA 66
TO LEAD FIELD

Hamilton Professional Shoots
Sensational 66 in Canadian
Open Golf

Horton Smith Has a 72: Fine
Play of Canadians Features
First Round

Canadian Press
Ancaster, Ont., July 24 - Equal-
ling the course record for the sec-
ond time this year, Nick Thomp-
son Sr. professional at the Ham-
ilton Golf Club, shot a 66 over his
home course to-day and took a sub-
stantial lead in the Canadian open
golf championship.

The record for the course was jointly
held by Thompson and the late J.
Douglas Edgar of Atlanta, Ga., who
played a round in 66 in winning the
title at Ancaster in 1919.

NEWS IN BRIEF

Permit for alterations to a dwelling at 239 Douglas Street for Otto J. Weller was taken out at the City Hall yesterday in the sum of \$3,500.

John Riddell, one of the British Rotary representatives to the international convention, was a guest at the local club's luncheon in the Empress Hotel to-day.

Tenders for catering at the city hall were laid over by the police commission yesterday owing to the absence of Commissioner W. E. Stenland. Suggested changes in parking regulations for View Street were also deferred.

Fire in premises at 566 Yates Street gave the department a run at 8:10 o'clock this morning. Little damage was done. A roof fire at 146 Clarence Street was attended at 1:25 o'clock this afternoon.

W. B. Towley was charged in City Police Court this morning with obtaining board and lodging at 905 Cook Street by false pretences. He was remanded until to-morrow on his own request.

The fifth grass fire in one week on city property at the north end of Joseph Street was attended by the fire department yesterday evening at 7 o'clock. Street car service was slightly hampered by a hose across the tracks.

Mrs. W. Madden, 1363 Roslyn Street, was taken to the Jubilee Hospital at 6:15 o'clock yesterday evening for treatment to minor injuries received when her car was in collision with one driven by Mrs. A. Kirk, 218 Cross Street, at the intersection of Pandora and Belmont Avenues. Dr. W. E. M. Mitchell attended.

Traffic on the Uplands street car line was tied up for some time last night when a car left the tracks and came to rest against the back fence of property at 1902 Duchess Street. Transferring of passengers from cars on either side of the site of the mishap served to complete the service. A wrecking car was rushed out to place the car back on the track.

About 1,000 people listened with enthusiastic appreciation to the excellent concert given at the Parliament Buildings yesterday evening by the Glasc, Shrine Temple Band and the First United Church choir, both instrumental and vocal numbers being warmly applauded. The concert was the final one of the complimentary series given by the Shrine's band. Joseph North seized the opportunity to take up a collection among the spectators in aid of the Sunshine Camp at Sooke. It amounted to \$65.15, which will be handed over to the Social Service League.

The second annual basket picnic of the Vancouver Island Typographical Union will be held at Deep Cove on Sunday. Every effort has been made to arrange a most enjoyable affair. A big programme of field sports and novelty features will be carried out in the Charles grounds, and special attention will be given to the kiddies. Featuring the sports bill will be the annual softball game between the Victoria and Nanaimo teams for possession of the Poodle Dog Cup, now held by the Nanaimo typsetters. A special bus will leave the Vancouver Island Coach Lines depot at 10 o'clock.

A meeting of the committee of the Society for the Prevention of Cruelty to Animals was held in the society's room, 40 Arcade Building, Tuesday evening. The inspector's report showed much work accomplished since the last meeting forty-seven cases having been attended and 390 inspections made. The day-day held on Saturday brought in the sum of \$468.56 which, considering conditions and the fact that many are absent from town on their holidays, was deemed highly satisfactory. Notices are being posted by the society in parks and on beaches warning campers not to leave their dogs or cats behind when returning to their homes and to provide food, water and shelter for those left at home. Persons found negligent in this respect are liable to a fine of \$50, with or without hard labor. The thanks of the society are due to the press, the Melrose Company, the Vimpa Company, David Spencer Limited and all the workers who helped to make the tag day such a success. Cases of cruelty or neglect should be reported to the inspector, G. A. Allen, telephone 7619, or to A. H. Sherwood, secretary-treasurer, 74311.

OBITUARY

Miss Little Flood passed away this morning at the residence, 102 Moss Street, aged seventy years. She was born in Marlboro, Carlton County, Ontario, and had resided in Victoria twenty-three years. She is survived by two sisters, Mrs. W. C. Van Munster and Miss Katherine Flood of Victoria, and two brothers, Robert Flood of this city, and Porteous Flood of Carlton, Ontario. The funeral will be held from the residence on Friday afternoon at 3:30 o'clock. The arrangements are in the hands of the B.C. Funeral Company, and it is requested that no flowers be sent.

The remains of the late Mrs. Olive Miriam Moulton, wife of Robert Moulton, of Cobble Hill, who passed away at St. Joseph's Hospital yesterday, were forwarded this afternoon to E. H. Whidden's parlors at Duncan, from where the funeral will be held tomorrow afternoon at 2:15 o'clock, proceeding to St. John's Church, Cobble Hill, for services at 3 o'clock. Interment will be in the church cemetery.

The remains of Edward Kermode were laid at rest in Royal Oak Burial Park yesterday afternoon, the funeral taking place from Hayward's B.C. Funeral Chapel at 1:45 o'clock. Rev. E. W. P. Carter officiated in the presence of a large number of friends, including the members of the Longshoremen's Union and members of the Pro Patria branch, Canadian Legion. The hymns sung were "Onward, Christian Soldier" and "Nearer, My God, to Thee." A profusion of beautiful floral offerings were received and placed on the casket and hearse. The pallbearers were J. Armstrong, George Dodd and W. E. Dapley, representing the Pro Patria branch; and R. Christensen, James Whidden and David Hunter, representing the Longshoremen's Union.

Funeral services were held over the remains of Mrs. Ethel Jane Blake yesterday afternoon at 3:30 o'clock at Hayward's B.C. Funeral Chapel. Rev. Bruce Gray officiating. The hymns sung were "Jesus Calls Us Over the Tumult" and "Rock of Ages." A large number of friends were present and numerous beautiful floral designs covered the casket and hearse. The pallbearers were W. H. Curtis, A. E. Thompson, W. F. Bridge, T. A. Simmons, J. Purdy and D. J. McLeimann. The remains were laid at rest in Royal Oak Burial Park.

GIRL'S HAIR IN WRINGER, MOTHER BREAKS ANKLE

Mae Pomeroy Painfully Hurt When Using Washing Machine; Scalp Torn

Mother Rushing to Aid Breaks Leg, Necessitating Removal to Hospital

An unusual accident which painfully affected two members of the Pomeroy family, of 2361 Willow Road, occurred yesterday morning at the family residence.

Miss Rae Pomeroy was busy operating an electric washing machine when she noticed some dirt on her sleeve. In bending over the machine to wash away the stain, a gust of wind from an open window blew her hair into the wringer, and slowly drew her head toward the machine. Her scream attracted her mother from an upstairs room. Mrs. Frank Pomeroy rushed down the stairs to assist her daughter, but fell before she got to the bottom, breaking her ankle. She could not give immediate assistance to her daughter, who, however, managed to shut off the power and to extricate her hair. Miss Pomeroy's scalp was badly torn and part of her face swollen.

Mrs. Pomeroy was taken to the Jubilee Hospital, where she is being attended by Dr. F. M. Bryant.

SMALL ROTARY PARLEYS BEST, SAYS BEATTY

District Meetings More Beneficial Than International, Delegate Claims

"I still feel that far better results come from district conventions than from international meetings," stated J. H. Beatty, M.P.P., in reporting to the local Rotary Club on the International Convention at the Victoria club's luncheon to-day. Closer contacts were made in smaller gatherings, he said.

He traced the course of the convention, paying particular tribute to the British representatives for the well-thought out suggestions they had submitted.

Over 11,000 Rotarians from fifty-one countries attended the convention. Mr. Beatty stated:

The desirability of splitting big clubs into smaller bodies was outlined by the speaker. It was not so much a case of quantity as quality, in the building up of the Rotary ideal, he maintained.

Mr. Beatty referred to the words of the Australian international vice-president, paying high tribute to the thoughts of the European. He also gave descriptions of other celebrities who attended and enumerated several humorous anecdotes which happened during the session.

Another fine objective some clubs had followed was that of loaning money to young men and women to carry on their university careers, said Mr. Beatty. In many instances where this had been observed, the clubs had been repaid every cent of what it had loaned, he said.

The desirability of meeting rural inhabitants in club luncheons was another objective that had been suggested.

THORNTON COMMENDED

Mr. Beatty spoke highly of the address of Sir Henry Thornton, who had urged the clubmen to look behind the customs of foreign peoples before criticizing them.

There were more lobbyists in the international convention than there are here in the present federal election campaign, he said, speaking of the boosting of Al. Rolf into the presidency.

"Rotary is becoming very big and cannot be carried on with a heavy handshake and a slap on the back," he commented, urging all clubmen to put their shoulder behind the wheel to assist the movement.

Bruce McLean, Winnipeg grain man, who has been at the Empress Hotel with his family for the last week, playing golf every day at Oak Bay, will leave to-morrow to return to Winnipeg. He will spend several days going through all parts of Alberta on his way east to make a crop survey of that province.

"This is without doubt the ideal place for a vacation," Mr. McLean said. "The hotel, the cool summer weather, with the sunshine and the fresh breezes of the golf links combine to make it a wonderful resort. I come back every chance I get."

John F. Dougherty, former superintendent of insurance for B.C., came over this morning from Vancouver to visit old friends here.

Among the other Vancouverites who came to-day were: Miss M. McNabb, Archibald C. H. Gerardi, the mining engineer, H. J. Boyaner, F. J. Hayes, J. Muirhead and J. E. McMullen, the railway counsel.

To-day a Secret Is Out!

FOR MONTHS past it has been rumored in radio circles that one company would step away ahead of all competitors with a revolutionary new set so advanced in its engineering and reception refinements as to offer an entirely new standard of musical entertainment for the home. To-day the secret is out . . .

BRUNSWICK

Announces the Radio Sensation of 1931.

And this instance is another illustration of the pre-eminent position of Fletcher Brothers in the musical instrument trade of British Columbia. To Fletcher Brothers, and Fletcher Brothers exclusively, has been given the privilege of distributing the new 1931 Brunswick on Vancouver Island. You are accordingly invited to see our window display to-day, and to come in and hear the instrument that has been the outstanding feature of the big radio shows in the east and west this summer.

HERE IS WHAT YOU WILL SEE

Radio cabinets of unequalled design and workmanship—plus the simplest one-dial control ever devised for radio. In the new 1930 Brunswick UNI-CONTROL does it all! Turns "on." Turns in. Gets distant stations with such precision that only one station can be received at a time. Subdues volume for local. Increases volume. Decreases volume. Operates tone control so that bass or treble is accentuated at will. Turns off set. One dial does it all!

THIS IS WHAT YOU WILL HEAR

Brunswick's completely new armored chassis with screen-grid tubes gives tremendous power under perfect control, and the result is a purity of musical tone that is sensationally new . . . amazingly beautiful. No past performance of radio has been anything like it. You must hear it to fully realize its musical possibilities.

PRICES SET A NEW STANDARD OF VALUE

Considered the rich refinement of the new Brunswick cabinets, the musical quality, careful workmanship that is apparent in every detail, advanced engineering principles employed for the first time—the values are incomparably the finest ever known in radio. Lowboy model at \$229.85. Highboy at \$267.50. Convenient terms and no waiting . . . delivery of your set to-day.

Take a Half-hour To-day and See the Brunswick Radio Sensation of 1931

FLETCHER BROS.

Exclusive Brunswick Distributor for Vancouver Island

Mr. and Mrs. H. K. Todd of Tacoma, Mrs. K. Maxwell, J. Collins and Mrs. C. Hall.

Fairlie people here to-day include: Mr. and Mrs. W. W. Wiegand of Minneapolis, Mr. and Mrs. J. J. Coway of Calgary, Mr. and Mrs. E. W. Bowness, Miss C. Trowbridge of Edmonton and a party from Winnipeg consisting of F. Sala, Y. Sala and I. Magne.

Helen Campbell Beaten To-day In Western Net Meet

Vancouver, July 24.—The final for the girls' under eighteen championship in the western Canadian tennis tournament being played at the Vancouver Lawn Tennis Club's courts, will be an all-U.S. affair as the result of the semi-finals to-day. Alice Marble, brilliant San Francisco youngster, disposed of Phyllis White, city junior champion, 6-2, 6-3, while Carolyn Fringes of Tacoma beat Helen Campbell of Victoria, B.C. champion, 6-3, 5-6.

Colin Milne and M. Atkinson entered the semi-finals of the boys' under seventeen singles, the former beating E. Maxwell, 6-2, 6-3, and Atkinson winning from O. Lacey Jr. by the same scores.

In veterans' match A. S. Milne won from P. Lyford, 6-3, 6-2.

PICNIC HELD AT DEEP COVE

Employees of Meat Department of David Spencer Ltd. Hold Outing Yesterday

Employees of the meat department of David Spencer Limited held their annual picnic yesterday afternoon at the Chalet at Deep Cove. The party left the store at 1:30 o'clock in cars provided by David Spencer, and arrived at Deep Cove at 2 o'clock.

A baseball match between the sausage makers and the meat cutters was won by the former by seventeen runs. The girls' baseball game was won by the delicatessen department by fourteen innings.

Prices donated by the Standard Steam Laundry were won by Mr. Long and Miss Knowles. A prize for girls donated by Smith, Davidson, and Wright, was won by Miss Knowles, and a prize donated by Bell, Canadian Co., was won by Miss Bradford. The programme included fourteen races, and included "catching the greasy pig." The pig was donated by T. Boyle and was finally captured by Fred Freer.

A tug of war, won by the men, brought the outing to a close. A vote of thanks was given the proprietor of the Chalet for helping to make the picnic a success. Oligars were donated by the McDonald Consolidated Co., and milk was provided by C. H. Williams.

VETERAN ANGLER LAUDS BRENTWOOD FISHING GROUND

High Standard of Sportsmanship Also Draws Praise of Eighty-year-old Fisherman

"The fishing here is wonderful, the surroundings are beautiful and there is as high a standard of sportsmanship shown on the waters of Brentwood as there is anywhere I have been," stated J. W. Ennis, angler of eighty years, who for the last sixty-five summers has fished throughout the United States and Canada.

Mr. Ennis is visiting Victoria from his home in Hollywood. He lived for many years in New York. Yesterday, in company with B. A. Peden and Crawford McDonald of this city, Mr. Ennis journeyed to Brentwood and took five fine salmon from the Saanich Arm. They varied in weight from twenty-five to twelve pounds, and were caught on "Ponder No. 7" spoons with two and one-quarter pound weights at the end of 50 feet of nine thread line. The veteran fisherman was using a nine-ounce rod when he captured the splendid prize.

THEY KNOW HOW

With a note of glee he added: "We were the only ones that caught any fish. These boys certainly know where to hook them."

It is his object to try for the Tyee Club's silver button if he stays on the island long enough.

During his varied experience with rod and line, Mr. Ennis has captured everything from a minnow to a 150-pound sea lion. He has landed Jew fish weighing 450 pounds at Santa Monica, and has taken many other unusual varieties of the finny tribe from the water.

Speaking of the sea lion, he stated he had taken it alive and had given it to a circus, where it was civilized to a point where it could smoke cigars and wear white paper collars.

He expressed his opinion that the fishing here in the delightful surroundings of the lower island was equal to anything he had experienced in eastern Canada and paid high tribute to the standard of the fighting tyee.

SAYS HE WAS ATTACKED

Harry Kerr, 70, Tyee Street, told police yesterday evening he had been assaulted by a number of men on Johnson Street when he refused a demand for money. Police were investigating the case to-day.

FREE! ACHING FEET

All this week I will examine, locate your trouble and tell you what you should do. Call to-day.

MORE Jam or Jelly

from any fruit
or any fruit
juice... from fresh
or canned fruit

MAKE delicious Loganberry Jam the Certo way. You'll make 3 1/2 lbs. with Certo for every 3 1/2 lbs. by old fashioned long-boiling. Certo guarantees a perfect set with any fruit, any fruit juice from fresh or canned fruit every day in the year.

Certo makes wonderful jellies and jams without the slightest risk of disappointment, yet the cost is less. Takes only a few minutes' boiling (follow directions carefully); flavour cannot boil away; 50% more from a given amount of fruit without waste through failure.

CERTO

The natural jelling substance extracted from fruit.
Jells the juice that would have boiled away by the old (long-boil) method.
Makes 50% more jam or jelly at less cost per jar.
Saves 3/4 the time. Saves the fruit flavour. Saves the fruit colour.

CERTO

Millions of Women
Use the Certo Booklet

They find the Certo recipe book underneath the label of every Certo bottle. They use many of the 37 home-tested recipes for jams, jellies and marmalades prepared simply and easily even from fruits that never before would jell. Follow recipes carefully—you'll be sure of success.

B.C. Mineral Production Higher But Value Is Lower Than Last Year, Says Report

Four new mines were brought into steady production in B.C. during the first six months of the year, but value of production throughout the province showed a decrease, according to the midyear report of Hon. W. A. MacKenzie, Minister of Mines.

The Union and Reno gold mines; the Prosperity, a silver mine, and the Mont-Arch, a lead-zinc producer, were put on a steady production basis, the report shows.

Although the output from all mines was actually larger, the money value showed a slight drop owing to lower metal prices, the report states. The gross value of the mineral and metal output for the first six months of the year is set at \$1,542,223 as against \$1,422,723 up to July last year, a decline in value of 7.8 per cent.

Comparison of the six month figures this year with the whole of last year indicates that the coal industry has suffered the most, production for the first six months being much less than half of last year's twelve month output.

Statistics compiled by John D. Gallo-way, provincial mineralogist, show the following details: Production of gold for the first six months of this year is estimated at 79,000 ounces, valued at \$1,633,077, while in the full year of 1929, 152,222 ounces, valued at \$3,123,120, was produced; silver production for the year to July 1 is placed at 5,600,000 ounces, valued at \$2,310,932, compared with 9,818,800 ounces, valued at \$3,284,270, for 1929.

Value of structural materials produced in the half-year is estimated at \$1,800,000, as against a total of \$3,921,708 in the entire twelve months of last year. Miscellaneous minerals and metals are placed at \$445,000 compared with \$1,200,000 for 1929.

OUTLOOK UNCERTAIN

Mr. MacKenzie spoke of the rather uncertain outlook for any material improvement in silver and zinc prices for some time to come, which condition has caused the bituminous coal mines in British Columbia to remain closed indefinitely. Another disturbing factor is the continued decline in value of coal, the output for the first six months being 99,853 long tons, valued at \$4,799,425, compared with 2,351,252 long tons, valued at \$11,542,200 in the preceding twelve months.

The chief cause of the distress in the coal-mining industry is undoubtedly the continually lessened demand from the railways, which are steadily replacing coal with fuel oil. The coal men are doing their utmost to obtain new markets and win back some that have been lost and it is to be hoped their efforts will soon bear fruit," he added.

Due to low prices of the output shows a decrease of 7.8 per cent, as compared with the 1929 rate of production, states the report, "but this is due entirely to lower metal prices. If valued at 1929 prices the production would be worth \$3,000,000, or more than half the 1929 value, which shows conclusively that in quantity of output has been exceeded.

"As compared with the 1929 rate, increased quantity production is estimated for gold, silver, lead and zinc, with copper the only one of the major metals to show a decline, due to the curtailment by the Grassy-Copper mine at Hidden Creek and Comstock main mine.

The slight increase in gold output is accounted for by steady production from the Reno and Union mines, both new shippers.

The increased production of silver is due to an output of approximately 700,000 ounces more than the normal mines, near Stewart, which commenced production late in 1929.

Lead and zinc outputs showed an increase due to increased production from Sullivan mines, and to steady shipments of concentrates from the Monarch mines, which began regular production from the new mill about the end of the year.

The big drop in the production of miscellaneous minerals and metals is surprising, but is to be attributed to certain definite reasons. No blismuth and only 58 per cent of the normal cadmium output was produced at Trail during the six-month period. The world market for these metals is limited and apparently the Consolidated Company had nearly sufficient stock on hand to meet buying demands. However, the short fall in these two metals accounts for \$500,000 of the decrease in the half-yearly output in this class of mineral production.

SMALL PRODUCERS SHUT

"The bulk of the metallic mineral production of the province for the last five years has been made by five mines and the record of the past six months shows that many small mines closing down effects but little the total production. During the last three years, development had indicated that a number of properties were likely to become producers in the near future. These were mainly deposits carrying fine, lead and silver, with usually unimportant gold values. Abnormally low metal prices and the uncertain future outlook for improvement have stopped many of these enterprises, and have caused capital to look more for high grade properties than before.

ENCOURAGING REPORT

"It cannot be expected, therefore, that the industry will do much more than hold its own so far as metal production is concerned until prices improve materially. It is decidedly encouraging, however, that during a period of world depression in mining (except gold) that British Columbia should have made such a splendid record. With improvement in world conditions, which is bound to come sooner or later, the mineral industry of British Columbia will continue to expand in future years, as it has in the past.

WILL STOP PRODUCTION

"During the period under review, metal prices declined almost steadily, and are now at levels that must certainly stop production from high-cost metal producers all over the world. This condition will probably result in stopping the over-production of metals much faster than artificial curtailment as an aid to holding up controlled price levels. Copper and lead may be expected to respond relatively quickly to a rising demand. Zinc may also do so in time, but years may elapse before the flood of by-product zinc is absorbed by

the growth of new markets for zinc statistically, and world authorities are but little hope of price improvement. In the past, silver has had a value based on the idea that it was wealth, particularly in the Orient, as well as its use as a commodity. Now it is rapidly losing its prestige as wealth, and in a few years may only be a commodity, subject to the usual law of supply and demand. Unless new uses for the metal are found with selling prices for articles and alloys manufactured from it, based on a reasonable basis, the price of the metal (which is not the case at present), then silver may sink to much lower price levels.

MAY GO LOWER

"Silver is in an unfortunate position but little hope of price improvement. In the past, silver has had a value based on the idea that it was wealth, particularly in the Orient, as well as its use as a commodity. Now it is rapidly losing its prestige as wealth, and in a few years may only be a commodity, subject to the usual law of supply and demand. Unless new uses for the metal are found with selling prices for articles and alloys manufactured from it, based on a reasonable basis, the price of the metal (which is not the case at present), then silver may sink to much lower price levels.

The most serious situation in the mining industry is the decline in the coal production. The figures for the half-year show a decrease of 18 per cent as compared with the first six months of 1929, and that year in turn showed a substantial decline, as compared with 1928. Many reasons for the steady loss of coal output have been advanced, but in brief it may be summed up that more convenient and efficient fuel, and in some instances at lower cost, in the shape of fuel oil and imported coal, is displacing British Columbia coal in the existing markets.

"It is believed that cost is only a minor reason, and that efficiency, cleanliness and quality are largely the deciding factors. If so, the problem involves itself into transforming British Columbia coal into fuel that will again find favor with the ultimate consumer—if this is possible.

DEVELOPMENT

"The larger mining companies have maintained development on the usual scale, not only at producing properties, but at many which are in the semi-developed stage. In particular, the Consolidated has continued its wide-scale development programme throughout the province practically without curtailment. This company normally each year takes up and drops after examination or a small amount of work, many properties, but at the present time has an average number under development.

Timber development results recently obtained by this company are the Big Missouri, which now bids fair to become an important gold-producer. After examination it is to be commenced this year, but no details have yet been officially announced. The Consolidated Company is also vigorously pushing development of the Emerald property in Onychia mining division.

STRIKE REPORTED

"A keen search is being made by scouting engineers for gold prospects, and plans initiated in 1929 may be expected to bring results in future years. There is no question that in both lead and place deposits, there are possibilities for further gold mining in British Columbia. Prospecting has been well maintained, some districts reporting more men in the hills than in 1929. An important strike has been reported on the Skelton River, but exact information has not yet been obtained."

Langford

The monthly meeting of the Langford Women's Institute was held on Tuesday afternoon at the home of Mrs. T. H. Smallwood, with Mrs. Dan Malcolm, president, presiding. Mrs. P. M. Welch reported on the successful fete held at "Marshwood" for the Solarium. A letter of thanks was read from Miss Stone, lady superintendent, for jam and bottled fruit. Mr. and Mrs. P. M. Welch, and Mrs. V. McFarlane were thanked for aid given the fete.

Hon. R. H. Pooley submitted information regarding formation of a village municipality. Copies of the meeting will be held at a later date.

Wool donated by the B.C. Worsted Mills is being carried by Mrs. George Alkman and friends, and a knitting bee will be held on Tuesday, July 29, in the Institute Hall. Letters of sympathy were ordered sent to Mrs. J. D. Gordon and Mrs. David Ramsay, Institute members, recently injured in accidents.

Conveners for the local flower show on August 27 will be Mrs. L. M. A. Savory and Mrs. G. Alkman, for agricultural, Mrs. J. E. Macdonald, women's needlework and children's entries; Mrs. D. Malcolm, work stalls; Mrs. G. Alkman, home-keeping table; after tea, Mrs. N. O. Johnston, Mrs. A. B. Bown, and others, ice cream and competition. Mrs. H. A. Hineke.

Tea was served on the veranda overlooking the lake, by Mrs. T. H. Smallwood, Mrs. Allan and Miss May Allan.

Many attractions are planned for the novelty tea to be held on Friday by St. Matthew's Church Guild at the home of Mrs. J. E. Macdonald, Langford Lake. Girl Guides will run housekeeping, fancy work and home cooking will be sold and contests arranged. Dancing by Margaret Bredley, Georgina Conroy and Dorothy Welham, will include tap, acrobatic and jigs.

There will also be bathing, boating, afternoon tea, and ice cream. For visitors arriving by boat the landing stage will be marked by a flag.

Miss Peggy Moore is visiting her grandmother, Mrs. Nelson, of Victoria.

Miss Winifred Bown, who has been spending a vacation on the Island, has returned to Solway House, Langford Lake.

Clarence Brynjolfsson and friend from Oak Bay are spending the summer at Langford Lake.

Miss L. Bingham of Esquimalt Road, is the guest of Mrs. I. W. F. Jackson, Goldstream Road.

Mr. and Mrs. C. F. Karia and family are spending a vacation at Bagshot Lodge, Langford Lake.

Mr. and Mrs. J. C. Newbury are staying at their summer home on Leigh Road, Langford Lake.

Mrs. A. Barrett Bown has as her house guest, Mrs. Hall of Victoria. St. Matthew's Church Sunday school students held a picnic on Tuesday afternoon at Witty's Beach, Metchoan. Bathing and revellers were played until tea time. Rev. E. L. Nixon, and Mrs. E. P. Sullivan provided transportation.

Stanley Turner is staying with Mr. and Mrs. David Ramsay, Heath Drive, Victoria.

Tennis tournament results are as follows:
Open doubles—Mrs. A. F. Bayles and H. C. C. Bennett defeated Mr. and Mrs. E. P. Le Guesne, 6-2, 6-3; Miss C. Setch-

VACANCIES IN SCHOOL STAFFS NOW FILLED

Board Appoints Seven New Teachers in High and Graded Schools

Seven appointments to the teaching staffs of the high and graded schools of the city and three transfers, were effected by the City School Board at its meeting yesterday evening. They were:

Appointed to graded schools—Bessie of coal and 300 cords of wood for heat-

A. Stovel, Gladys V. Tanner, Gertrude Lemm and Dorothy L. Margison. Appointed to domestic science staff—Beth Ramsey, B.Sc., Iris Garnett, B.Sc.

Appointed to high school staff—Violet M. Swanson, B.A.

Transfers made were—W. M. Muncey to North Ward; Capt. T. E. Wheldon to Quadra; George E. Greene, B.A., to Burnside School.

Resignations of Miss Frances McKay, teacher of home economics, and Kenneth Waites, vice-principal, were accepted with regret.

An attempt by Trustee Kenneth Ferguson to overrule the customary exclusion of the press for discussion of staff matters was defeated by the board. Trustee Victor Emery supported Mr. Ferguson, but on a vote put to the meeting, Chairman George Jay and Trustees W. C. Morelby, K.C., J. A. McMillan and G. A. A. Hedden favored exclusion of the newspapers.

Contracts for supplying 1,200 tons of coal and 300 cords of wood for heat-

ing purposes in the schools were awarded. Morgan Fuel Company submitted the lowest price on coal, getting the contract at \$9.50 per ton for single screened lump coal. Kingham & Gillespie and Painter & Sons were jointly awarded the wood contract at \$5.75 per cord.

Purchase of supplies for the High School chemistry and physics laboratories was authorized.

School Board offices will be closed from August 5 for the two weeks' annual holiday of the staff, the next board meeting being set for August 27.

SCHOOL BOYS TO TOUR

London, July 24.—Arrangements have been completed for the fifth of the series of Empire tours by public school boys. This year's tour will take in most of the African colonies and protectorates, Zanzibar, Tanganyika, Kenya and Uganda being visited. The party will leave for Mombasa August 1 and return to England November 22.

cool!

Sure they're cooling! Kellogg's Corn Flakes are extra easy to digest. They furnish energy without "heating" the body. Help you keep cool and fit. Eat them every day in summer.

delicious!

And see how much better you feel!

Kellogg's CORN FLAKES

You'll like Kellogg's Corn Flakes for lunch and supper as well as breakfast. Extra delicious served with fruit or honey.

Ideal for the kiddies' evening meal—with fresh milk or cream. Always oven-fresh in the red-and-green package with the inner sealed waxtite wrapper.

More than 12,000,000 daily prefer Kellogg's Corn Flakes. Sold by all grocers. Served by hotels, restaurants—on diners. Made by Kellogg in London, Ontario.

FAMOUS MUSICAL COMEDY FEATURE HERE THIS WEEK

The screen production of "No, No, Nanette," which is now at the Coliseum Theatre, will contain song hits from the original stage show as well as many new numbers which have already attained great popularity since the recent release of this colorful First National picture.

"Tea For Two" and "I Want To Be Happy" from the footlight production will be heard in the Vitaphone edition, sung by a chorus of 150 and the two featured leads, Bernice Claire and Alexander Gray. These two songs were among the country's best sellers when "No, No, Nanette" was having its sensational success on Broadway.

RAMON NOVARRO AT DOMINION THEATRE IN "OLD MADRID"

Ramon Novarro whose most recent appearance in "Devil May Care" created pangs of praise will be seen and heard again at the Dominion Theatre commencing to-day in a stirring romantic drama of old Madrid. His rich tenor voice will charm movie patrons as it never did before. "In Old Madrid" was adapted from a very popular play and it comes to the talking and singing screen as a delightful production. The supporting cast includes such favorites as Lottice Howell and Dorothy Jordan. Ramon Novarro is right at home in this play of Spain, as a visit to Dominion Theatre will prove. Ramon was born in Durango, Mexico, where he studied music with the idea of going into grand opera, before coming to the screen, his first big hit being "Omar Khayyam". Among his later triumphs are "The Prisoner of Zenda," "Ben Hur," and "The Flying Fleet."

"In Old Madrid" will be shown at the Dominion Theatre to-day, Friday and Saturday, along with the latest offering in talking comedies featuring that popular team Stan Laurel and Oliver Hardy. A musical specialty in the form of "Buddy's Traps" completes this all round entertaining programme.

BUOYANT PLEASURE

that lifts smoking right out of the "habit" class and makes it a real pleasure—

Not only the first one in the morning and the after-dinner puff—but every cigarette all day long is a keen enjoyment to Dixie smokers.

Mellow, cool, fragrant as fine, selected Virginia tobacco should be—rolled right so they smoke right—the mild smoothness captivates at first, then gives permanent enjoyment.

KENTUCKY SETTING FOR MAYNARD FILM AT THE COLUMBIA

A Kentucky mountain court, where the men of the hills take the law into their own hands and where justice seldom fails is one of the highly dramatic episodes of "Mountain Justice," Ken Maynard's latest Universal talking picture now showing at the Columbia Theatre.

The mountain court or tribunal is an affair of secrecy at which the mountaineers settle disputes according to their own peculiar code of honor. Seldom has an outsider witnessed a session of the court and it was only after weeks of intensive research work that authentic details for the picture were obtainable.

ENGLISH PICTURE AT CAPITOL WITH HIGH-CLASS CAST

"Rookery Nook," a British all-talking comedy, will be presented to-day, Friday and Saturday at the Capitol Theatre by Metro-Goldwyn-Mayer. This is the photoplay made and released in England which is said to have been convulsing audiences at the New Gallery Theatre in London. It is based on the stage play "Rookery Nook," a farce by Ben Travers that ran for 400 consecutive performances at the Aldwych Theatre in London and was ranked as one of the most successful theatrical productions ever made abroad.

The picture is described by London critics as by far the best audible film yet produced in England and the best talking picture farce yet made. The cast is the same as that of the stage success from which it was adapted, including such prominent English farceurs as Tom Walls, Ralph Lynn, Mary Brough, Robertson Hare, Ethel Coleridge, and Winifred Shotter in the chief feminine role.

BRITISH VETERAN DIRECTOR OF FILM COMING NEXT WEEK

Colonel Gordon Magee, perhaps the foremost authority in Hollywood on British and foreign military regulations and atmosphere, was the technical advisor engaged by Tiffany Productions for their all-dialogue film version of R. C. Sherriff's famous war play, "Journey's End," showing next week at the Playhouse Theatre.

Colonel Magee had the aid of practically the entire staff and cast of the production, for nearly every member of the company has seen the type of war service depicted in "Journey's End," a Tiffany-Gainsborough-Welch-Pearson production recorded by RCA Photophone.

TO-DAY'S GRAIN MARKETS

By Branson, Brown & Co. Ltd.

Winnipeg, July 24.—Wheat: The wheat market was almost a local affair to-day with last year's quiet features trade passing. Early prices were half cent higher, based on steadiness in Liverpool, a little buying by export houses due to the upturn in corn. Demand was quickly filled and the local crowd appeared to be against the market, and a little short selling appeared and prices declined from 1 1/2 to 1 3/4 from the early high marks, getting into the daily bid, which brought in a little support and, with earlier sellers covering up, the market was lifted up to the privilege levels but the underings were not strong. Plenty reports of rust drifting in and these are being made the most of to bull prices, but the general opinion appears to be that while there may be some damage in certain spots, the crop generally, in southern Manitoba, is too far advanced and too well filled to receive any material damage. Exports overnight were 500,000 bushels, half of which was done by the pool, the balance being scattered amongst the trade. Some showers were received in the west the past twenty-four hours, and it was raining this morning at several points in Saskatchewan and Alberta, which will be of benefit. Temperatures are moderately warm and the crop generally is making satisfactory progress. There has, of course, been some permanent damage in central and southern Saskatchewan, and in a few sections of southern Alberta, but present indications are for a wheat crop of around 375,000,000 bushels or about 100,000,000 greater than last year. There was a good demand for all grades of cash wheat from shippers, but some grades are getting very light and round lots are almost impossible to obtain even at much better prices. No change in the flour situation. Sales of wheat by Russia were confirmed at 4,000,000 bushels, August to December shipment. Wheat closed 1/2 to 1/4 lower.

Coarse grains: While oats and rye were lower, all the coarse grains were very quiet. There is a continuous light demand of oats at 1/4 barley from eastern Canada, but foreign inquiry appears to have again fallen flat and no sales have been made since the past two days. Oats closed 1/2 to 1/4 lower, barely 1/2 to 1/4 lower. Flax dull and featureless. A little liquidation in cash month. Liverpool due 1/2 to 1/4 lower on Winnipeg.

WHITNEY LETTER

City Branch, Brown & Co. Limited

New York, July 24.—Whitney of Wall Street Financial Bureau, says to-day:

NO HURRY TO BUY

"Yesterday's market certainly represented a remarkable effort to get stocks moving on the upside, and served at least the commendable purpose of getting prices just that much further away from their bottoms, which, as pointed out yesterday, is gradually removing the danger of any further liquidation jeopardizing the low points and bringing on any new wave of pessimism. This means that there is less and less possibility of the market constituting any possible psychological interference to the turn which business is attempting to make, and which I believe it will make in the middle or latter portion of next month. The present market performance therefore is one which represents the serious efforts of those who have its interests at heart and it would certainly be unfeeling to criticize anything that we have seen in the last two days from the aspect of its long-term benefits to all concerned. The only point which has been made here is that it appears to be a little early for the initiation of the actual advance."

"This viewpoint being taken in spite of the fact that accumulation of issues has been proceeding to a satisfactory degree for the last five to six weeks. As the characteristic of accumulation periods, there is no desire to combine this process with one of actually raising up prices, so that during the time when accumulation is being carried on the only procedure possible is the adoption of a policy which calls, first, for no short selling; second, for no evidence of following up strong spots on the buying side; third, the utilization of periods of weakness to buy stocks in which you must not expect immediate action on the up side. This lack of action, however, is compensated by the fact that some three or four weeks later you will be able to look back to some actual buying prices of which you can justly be proud."

"Any setbacks from now on, I believe, fit into this picture, and while I would not advise loading up with anything like all the stocks you can carry, I certainly think that you can begin to do some carrying which will not hurt you from now on, provided that you simply use a place somewhat weaker than the last two days to do the buying."

COMMENT

"General Motors second quarter earnings practically fulfilled predictions and bring the half year up to about \$2.15, including some non-recurring items, to \$2.32. This puts the company well on the way to earning the full year's dividend requirements, and believe the stock is one you can begin to buy on any dip."

"Corn products, Standard of New Jersey and Yellow Truck are in the same class, with accumulation of them likewise warranted on one to two point dips."

SEARCHER'S REPORT 2,000 DEAD IN ITALY QUAKE

(Continued from Page 1)

ORPHANS KILLED

The Duchess of Aosta, who yesterday visited the wounded in the hospitals of Naples and died much to the sorrow of the people of the city, went to-day into the stricken interior. She was greatly moved at Ariand at sight of the Orphan asylum buildings, which had collapsed and killed scores of little children. Hundreds of onlookers wept when the Duchess knelt and placed an ivory crucifix which she wore on the body of a little girl half buried in the debris.

NOON REPORT

Rome, July 24.—Reports tabulated by government officials up to noon to-day showed the heavy earthquake of Tuesday in southern Italy had caused at least 1,778 deaths and injured 4,264 persons.

The toll, meanwhile, was growing hourly as fresh reports were received from the stricken regions where bodies were being taken from the ruins of crumpled buildings.

The Ministry of the Interior gave out the figures, having had great difficulty in obtaining them from provincial prefects, who were unwilling to give out even approximate totals and appeared greatly incensed at what they considered exaggerated reports published abroad.

REPORTS FOR AMERICANS

Officials of the Interior Department worked busily in order to prepare a tabulation, however, partly to allay by correct figures the fears of 10,000,000 Americans, many of whom have relatives in the stricken area.

As returns from the province of Avellino, showing 1,302 deaths raised the figures from the previous unofficial estimate of 678.

Among the damaged buildings is the Royal Palace at Capri. The palace is a fine example of the architecture of the 17th century. It was almost completely destroyed.

GOVERNMENT MEASURES

Premier Mussolini intends to call a council of the ministers into session soon to take emergency measures.

Romans had a scare about 7 o'clock this morning when usually strong gusts of wind rattled windows and slammed doors. Thinking it was some turn for a quake, some persons hurried out of their houses, only to perceive they were safe after all.

NO FIGURES PRINTED

The two Roman morning newspapers, apparently by agreement or order, printed no figures or even estimates of the dead and injured, nor did they estimate the extent of the property damage. Both carried considerable matter of other details of the quake, however.

LIST OF DEATHS

Among the figures of dead and injured given out by the Government at noon were:

Province of Avellino..... 1,302 2,072
Foggia..... 120 1,587
Potenza..... 232 335
Total..... 1,708 4,285

TOWNS RUINED

Thirty towns in Avellino were ruined.

CALL MONEY OUTSIDE DROPS TO 11-1/4 PER CENT

But Market Fails to Break Through Resistance Points on Up-side

Ten Per Cent Wage Cut Is Announced For National Cash Register

U.S. Steel Profits Less, Directors Will Pay Only Regular Dividends

New York, July 24 (B.C. Bond)

At the close of the market this afternoon, the Dow Jones average

was 235.51, or 3.51 points for the day; for twenty calls at 134.15, off .43

points; and for twenty utilities at 128.50, off .10 points.

For the day totaled 1,472, -100 shares.

"There is a decidedly better tone in the statements being heard daily regarding the steel industry. The industry is gradually getting out of the slump, and cuts in production are gradually being made. It is declared that when the Standard of New York Vacuum is out of the market, that other deals are to be expected."

"Corn Products and Standard Oil insiders are reported steadily adding to the long list of Commercial Solvents. The first named company has a big contract with Commercial Solvents and a community of interests with the Standard of New York and Commercial Solvents."

Premier Gold Mining Situation Analyzed

Premier Gold Mining Company, which at its present price is yielding over 20 per cent, has a substantial dividend record, having returned to its shareholders of \$5,000,000. The company, which operates in addition to its own property, the Prosperity, Silver Lake, and other mines, has done extensive development of all these properties. An analysis of the company is issued to-day by Brown & Co. Ltd.

U.S. Steel Profits Less, Directors Will Pay Only Regular Dividends

When it was announced that National Cash Register had reduced its dividend ten per cent, bearing traders endeavored to make capital of the announcement and met with fair success.

STREET IN DOUBT

One of the disappointing features of the recovery has been its failure to represent activity through a wide list of stocks.

The net result of to-day's session was to leave the street as much in doubt as ever concerning the ability of active stocks to break out of a relatively narrow trading range and to engage a rally of substantial proportions.

NO EXTRA FOR STREET

Wall Street Journal said: U.S. Steel net profits for the quarter ended June 30 after Federal taxes, sub. bonds, interest, depletion, etc., and after the quarter's proportion of interest received on income tax refunds from government, will approximate \$32,000,000. This will compare with \$35,777,000 for the same quarter of 1929.

The company's board of directors met last night and will declare regular quarterly dividends of \$1.75 a share on both preferred and common.

There have been rumors of an extra dividend, but no such dividend has been declared.

The company's earnings for the quarter ended June 30, 1929, were \$35,777,000, or \$1.75 a share on the common stock.

The company's earnings for the quarter ended June 30, 1929, were \$35,777,000, or \$1.75 a share on the common stock.

Dorothy Dix's Letter Box

DEAR MISS DIX—I am a young man who has lived a very gay life. About eight months ago I met a beautiful and wonderful girl, not of the dancing-hall, wild-woman crowd that I had been running with, but a noble, splendid woman. We fell in love with each other, and she straightened me out. I had been conceited, vain, lazy and didn't care how I made money, but this girl made me see what a worthless fellow I was, and I went to work and we were very happy.

Last week a fellow invited me to a party and I went back to the old crowd. They made a great fuss over me. I got drunk and had a wonderful time. Well, since this party I have had no peace of mind. I love dancing and flattery and the company of wild girls, but I love my fine, pure girl, too. What shall I do? If I marry her, do you think I will settle down and be content with a quiet life?

JULIO.

ANSWER—No, I don't, and I think under the circumstances you would be doing the girl a great injustice to marry her. The trouble with men is that they make the mistake of thinking that matrimony is a sort of cure-all for whatever weakness ails them.

They labor under the delusion that having a priest or a preacher mumble a few words over them will work some sort of a miracle that will change their whole nature; that it will make a lazy man industrious; that it will quench a drunkard's thirst and make a man with dancing feet want to put them in slippers and sit by his own fireside every evening.

Nothing of the kind happens. A man's tastes and habits and desires are not altered by a march up to the altar. The things you enjoy doing before marriage you will enjoy doing after marriage. The places you like to go before marriage will still attract you after marriage. The crowd that allured you to them before marriage will draw you to them after marriage.

And that is where the trouble begins, because after marriage you are not free to indulge yourself and follow your inclinations as you were before marriage. You have a wife to consider and you will make her very miserable if you do the things of which she does not approve.

No man has a right to get married until he is ready to settle down, until he is done with dance halls and dance-hall girls, until the very sight of a wild out fills him with loathing, until a home and a good woman look better to him than anything else on earth.

You can't run with the hare and the hounds at the same time, Julio. You can't have the love and honor and respect of a good woman and the blandishments of bad ones.

You have to choose between them. Don't marry until you make up your mind which one you really want.

DOROTHY DIX.

DEAR DOROTHY DIX—Will you please tell me why my son almost never writes to me. I often do not hear from him for months at a time and then he writes just little notes. I worry so when I don't hear from him, for fear he is sick or something is the matter with him.

ANXIOUS MOTHER.

ANSWER—I think, Anxious Mother, that when many a man goes up to the judgment bar the blackest score the recording angel will have charged against him will be, "He didn't write to his mother."

For there are thousands upon thousands of sons like yours. Men who have got so absorbed in their own affairs, who are so self-centred and selfish, that they have forgotten their old mothers.

It isn't that they have ceased to love their mothers. Oh, dear, no. Mother has a shrine in their heart where they worship in secret. But they are busy and tired and rushed with work and burdened with anxieties and so they put off from day to day writing to mother.

They forget how lonely she is back in the old home from which all the children have gone; how long are the days in which nothing happens; how dull is the life that has no longer in it any hopes or plans or aspirations for itself. They forget that to mother they are still children, unable to take care of themselves, and that she is always worrying about their health and whether they remember to change their shoes when they get their feet wet, and if they have the right things to eat and enough covers on their beds on cold nights.

They forget that mother's life is merged in theirs, and that there is no detail of their lives in which she is not vitally interested and which she would not love to hear about.

They forget how she watches for the postman's step of a morning, how hope springs eternally in her breast that this day will be a red-letter day in which she will get a letter from her boy and the despair and the leaden heart with which she turns away when the postman passes her by and leaves her still looking for the letter that never comes.

It is only after mother is gone where no letter can reach her, and no remorse or repentance can avail, that many a man remembers with bitter tears the letters that he forgot to write to his mother.

DOROTHY DIX.

DEAR MISS DIX—My wife and I are a young couple who have twin boys about five months old. Every time they howl my wife runs and picks them up, thereby encouraging them in their temper. I tell her that she is ruining them, but she says that they are sick. If they were sick every time she thinks they are, they would be dead, but they are the healthiest-looking kids you ever saw. Am I right or is she right?

THE FATHER OF SPOILED TWINS.

ANSWER—Your wife is making a lot of trouble for herself and doing the children an injury by taking them up every time they cry. Get her a baby book and let her read what the authorities say on the subject.

You can't begin disciplining children too early. The foundations of character are laid in the cradle, and you can never undo the training a child gets in its babyhood. It is marvelous how early you can teach a child self-control and obedience.

Women give in to their babies and spoil them because it is easier to spoil them than it is to discipline them, but a man should have more firmness of character.

I am glad to see that you are going to be a father who recognizes his duty to help rear his children, instead of turning over the job entirely to their mother.

DOROTHY DIX.

Ella Cinders

Ella prevented Tim McCreary, amusement beach manager, from cheating two boys at a lemonade stand. And now—

I REMEMBER YOU, YOUNG LADY! YOU MADE THINGS UNPLEASANT FOR ME NOT LONG AGO! WHAT DO YOU WANT?

NOTHING, EXCEPT A CHANCE TO EARN AN HONEST LIVING AS A GOOD EMPLOYEE OF YOUR EMPLOYER, MR. COLE, OWNER OF THE AMUSEMENT PIER!

HMM! IT SAYS: MR. McNEENEY, I OWE A DEBT OF GRATITUDE TO THE BEARER, MISS CINDERS! SEE TO IT THAT SHE IS GIVEN EMPLOYMENT IMMEDIATELY! SIGNED, L.L. COLE!

WHAT CAN I GIVE YOU TO DO THAT WILL SPOIL YOUR SUMMER? HAVE YOU ANY QUALIFICATIONS?

JUST ONE! I SHOOT STRAIGHT WITH THE WORLD!

SPEND AN IDEA! I'LL MAKE YOU ATTENDANT IN THE SHOOTING GALLERY CONCESSION! MAYBE SOMEONE WILL MISTAKE YOU FOR A TARGET!

COME OVER, THEN, MR. McNEENEY! I'LL ALL MISTAKE YOU FOR A MUFFIN BEING SO ITS SAFE!

Mutt And Jeff

WHERE ARE WE, MUTT?

THE HOME OF ROYAL BLUE MILK.

SEVEN MILES TO THE NEAREST DETOUR!

YOU'RE A MILLION MILES FROM NOWHERE WHEN YOU'RE ONE SHORT MILE FROM HOME!

CHICKEN DINNER SOFT WITH FEATHERS SIXTY CENTS!

I CAN'T TELL YOU HOW TO GET TO CANADA BUT I CAN TELL YOU HOW TO GET AWAY FROM HERE!

IF YOU DO, I'M YOUR FRIEND FOR LIFE—IF I LIVE!

GO STRAIGHT TO SCATTERED GEARS, TURN LEFT TO WRECKED FEATHERS, AND RIGHT TO WEST BLOTTO—LEFT TO PAINTED PUMP—DETOUR TO BOTTLE CITY—BACK TO POKY IVY—RIGHT TO THE SUBMERGED FLAGPOLE—THEN EAST TO LOVER'S LEAD. DO YOU UNDERSTAND WHAT I SAID?

SURE!

THEN EXPLAIN IT TO ME, WILL YOU?

A SPIDER—OF COURSE!

The Gumps

TILDA—LOOK UP IN THAT CORNER! WHAT IS THAT COBWEB DOING THERE?

I THOUGHT I TOLD YOU TO DUST THIS ROOM—

LANDSAKES! I THOUGHT THAT WAS PART OF THE AERIAL—

MY TALK DOES NO GOOD—AFTER ALL I'VE SAID TO YOU ABOUT KEEPING THE HOUSE TIDY—I FIND A COBWEB RIGHT OUT IN PLAIN SIGHT—LOOK AT IT!

NOW WHAT DO YOU ATTRIBUTE THAT TO?

A SPIDER—OF COURSE!

THE MAN WHO WALKS WITH THE FOOT—WHO ARE THEY?

Bringing Up Father

IT'S BEEN A LONG TIME SINCE YOU LED YOUR WIFE TO THE ALTER. HASN'T IT JIGGED?

YES—AN' THAT'S WHENME LEADERSHIP ENDED.

YOU WUZ A HANDSOME LAD—BUT VERY BASHFUL.

I WUZ THAT—I REMEMBER IN MY EXCITEMENT I ONLY GAVE THE MINISTER FIVE DOLLARS—IT WORRIED ME FOR A LONG TIME! I WANTED TO GIVE HIM FIFTY.

DID YOU EVER GIVE IT TO HIM?

NO! IT WUZNT LONG BEFORE I STOPPED WORRYIN'.

AN' NOW I WISH I HADNT GIVEN HIM THE FIVE—

OUT OUR WAY

THERE'S ONE OLD BIRD THAT I'LL BET THINKS TH' YOUNGER GENERATION IS GOIN' TO TH' DOGS, BECAUSE HE CAN'T GET 'EM TO GO TO TH' ELEPHANTS.

WE USED TO THINK WE WAS GETTIN' IN FOR NOTHIN', WHEN WE WORKED LIKE DOGS CARRIN' AN OCEAN OF WATER TO TH' ELEPHANTS—NO THIS GENERATION AINT GOIN' TO NO DOGS—THEY GOIN' TO FOXES.

TICKET FOR THE BIG SHOW

A VANISHING RACE.

WILLIAMS

—By WILLIAMS' BOOTS AND HER BUDDIES

YOU STAYED UP OVER TWO HOURS! NICE WORK, BOOTS.

THANKS, MISTER! SRY, HAVE YOU HEARD TH' BIG NEWS?

TH' MAJOR IS GONNA OFFER A PRIZE TO TH' ONE WHO STAYS IN TH' MATH' LONGEST, WITH A GLIDER.

WE JUST TOLD ME IT'S SWEET SWAG, TOO! GREAT CHANCE FOR YOU, BABY.

I'M GONNA WIN IT, I'LL BETCHA! I'VE ALREADY STARTED TO PICK OUT SOME NEW CLOTHES I NEED.

WELL, YOU'D BETTER START AND GET IN A LITTLE PRACTICE.

SAY—I DON'T NEED ANY PRACTICE—IT'S DOUGH I NEED.

ADVERTISE IN THE TIMES

**B.C. Gains Preference
In Sashes and Doors As
New Zealand Raises Tariff**

Vancouver, July 24.—British Columbia's preference in the New Zealand sash and door market was increased unexpectedly from fifteen to twenty-five per cent and general lumber duties were raised by that Dominion, it is announced in a cable to the Province from its Auckland correspondent, W. D. Lusty-to-day. The new changes become operative immediately.

General lumber interests expressed some disappointment here to-day that the new tariff provided no Canadian preference in timber, but the new change is hailed by sash and door manufacturers as delivering to the B.C. factories practically the whole trade in their product. Business now going to Tacoma and other American points will be immediately cut off, it is expected. The new tariff on doors is placed at thirty per cent, or four shillings each, which ever is higher if of Empire production and fifty-five per cent or seven shillings and six pence if foreign. Previously B.C. doors enjoyed an advantage of only fifteen per cent over United States and foreign products.

Another spokesman viewing the preference to doors manufactured here,

declared this establishes a principle that may be widened by negotiation and possible results from the economic conference.

RAISE MORE REVENUE

The tariff alterations were unexpectedly introduced by the premier to-day before the budget was delivered to avoid abnormal clearances on the eve of the budget, the cable to the Province states. Additional taxation is designed to provide more revenue. There will be an increase in British preference by raising the duties on foreign goods and certain local industries will be assisted by increasing protection. Fiscal negotiations with countries wherein New Zealand may develop markets will be facilitated. The prime duty is abolished.

HEAVY PETROL DUTY

There are alterations in a large number of the items while a low list is subject to an extra 5 per cent. When foreign, and there is also a surtax of one-tenth of the tariff rates on spirits, tobacco, petrol and timber, and nine-tenths per cent on all others. The petrol duty is increased to 7d per gallon plus a surtax of 5 per cent. The new duties on motor vehicle chassis, including trucks, are 13 1-4 per cent, British, 4s per cent. Foreign motor passenger cars not exceeding \$200 in value are: British 24.5 per cent, foreign 6s per cent. The "body duty" on all motor vehicles is increased 1-4 per cent.

Norway controls sixty per cent of the world's whaling industry.

**WOMEN FLEE
WITH CHILDREN
FROM FLAMES****Langford Bush Fire Drives
Residents From Homes in
Fear of Lives****Blaze Brought Under Control
Sixty Feet From Island
Highway**

After jumping Dunford Road, scorching the walls of four homes and cutting a swath in the bush about 200 yards wide, the fire at Langford yesterday was checked within fifty feet of the Island Highway and less than a 100 yards from the well-settled area at Langford station.

Over fifty men, including a crew from the Wilfert Lumber Company and a gang of Public Works Department men from the Malahat, were engaged in fighting the blaze, which spread rapidly under the influence of a stiff westerly breeze.

Fire Ranger W. N. Campbell of Victoria and Assistant Ranger H. J. Dunn, who rushed from Shawnigan Lake to the scene, were in charge of the fire-fighters. Three houses on Dunford Road were in the greatest danger from the flames but, according to men who fought the fire, were probably saved owing to the strength of the wind which blew the fire past them before it had time to catch.

Mrs. M. C. Luff, who was at home with her two young daughters, related a graphic story of her retreat from the flames.

RAN FOR LIFE

"The fire was on us before we knew it," she said. "It jumped the road right in front of our place and our dry front lawn was ablaze in no time. I shouted to the girls to run and then I rushed to the house to get my valuables before hurrying up the road away from the house. The flames were right up to the house wall by that time and had caught hold of grass which extended underneath."

"Mr. Luff was away at James Island when I had visions of the whole place, and with the help of the garden hose, saved it."

On the opposite side of the road the fire cut a path across the garden of A. E. Hall's home, which was not occupied. Mrs. Milton Alkman and her three-year-old daughter escaped from their home as the flames cut an eighty-foot path between it and the Luff home.

ATTACKS FENCE

Fanned by the wind, the fire swept on toward the Island Highway, next attacking a fence at the rear of P. N. Welch's home. Broom and brush created a dangerous situation at this point, but fire fighters steered the flames away after several articles of value had been removed from the house. On the other side of the fire path, the Cow Kee Greenhouses were situated, but here again the buildings were saved by prompt action.

Assistant Ranger Dunn, arriving at the height of the fire from Shawnigan, took charge of back firing, and by 7:45 o'clock the blaze was under control with fire trails all around it. Tribute was paid by residents of the district to the prompt action of Frank Wilfert, proprietor of the Wilfert Lumber Company, who closed his mill and brought thirty men to fight the fire.

**MANY SAILORS
UNABLE TO CAST
FEDERAL VOTES**

Ottawa, July 24.—In approximately 200 electoral districts of Canada, advance polls were opened to-day for railway employees, commercial travelers and sailors. The hours of polling are from 7 to 10 p.m., standard time. Advance polls will be open again between the same hours on Friday and from 2 p.m. to 10 p.m. on Saturday. Despite these extra facilities, many sailors will be unable to vote. W. H. Daulton, of the operating department of the Canada Steamship Lines estimates approximately 20,000 sailors on the Great Lakes and in the Canadian coastal services will be absent.

The Grand Falls in Labrador, are in the course of the Hamilton River, which, in the course of five miles, drops 200 feet in tremendous rapids and then, with a roar audible for twenty miles, makes a final plunge of 316 feet into a circular basin. It is estimated that 4,000,000 horsepower can be obtained from these falls.

YOUR BEAUTY COLORS

**Tawny Tones Achieve
A Healthy and Natural
Harmony for Sue Carol**

By NINON

Music charms the soul by its exquisite harmony, its ability to strike chords that find echo in the human heart.

Real beauty attains the same ends. It gives one the same exhilaration as the sound of surf breaking on rocky beaches, clean winds whistling through forests. It is as gratifying and pleasing as a symphony.

This harmony, however, can be learned by the smart girl. You all can do much to tune in on the audition, the homage all lovely creations receive as their birthright.

If you happen to be the type that harmonizes naturally with merry sunshine, the kind of girl who suggests fresh gardens, gorgeous vistas—a gay, wholesome, brown-eyed Susan person—learn a few of Sue Carol's tricks.

OLIVE COMPLEXION

Sue has dancing brown eyes with no trace of sky sequestrer in them, honest, trusting brown eyes—the kind every man would love to look into. Her hair is rich brown, the brown of polished chestnuts, and her complexion is a clear, healthy olive.

If you are this type of girl, know that you harmonize best with natural things. Wear your hair simply, do not touch up your eyes even the least little bit, use rachel powder, narsurtium rouge and a dark, orange lipstick that has much of the sun's yellow in it. These are Sue's efficacious rules for make-up. She emerges the most natural and winning little beauty, perfectly in harmony with Nature. You can do the same. You can be the healthy, normal type such a large proportion of American men adore.

She wears all the tawny tones, orange, browns, yellows, reds, and she looks adorable in the greens of Nature itself. They use green lights to take

Sue Carol . . . gay brown eyes.

her pictures, for she seems like such an outdoor little five-foot-two person that she is best set off by woolly backgrounds.

FAVORITE FLOWERS

Her flower choices are staunch English primroses, native nasturtiums, California poppies, yellow daisies. And the only perfume she cares for are the natural flower odors, nothing complicated or synthetic. Simple, natural harmony all through. Is that harmony yours, too? It can be. For it is only the result of scientific care and experiment. Why not capture it? It is yours for the taking!

**MINCKLER TELLS
OF GREAT FORCE
ON HYDRO PROJECT****Columbia River Hydro-electric
Development Has Com-
plete Town For 2,500 Men**

Details of the immense hydro-electric project now under development on the Columbia River under the Stone & Webster Corporation for the Washington Electric Company and known as the Rock Island development, were brought here by Harold Minckler, who has returned from a motor tour to Wenatchee, Wash., during which he went over the power development with Dr. Sydney Bartlett, in charge of first aid, general health and sanitation there.

"The monthly average total force in the field since the start of January last has been 350, with the approximate total of men hours worked during the period of preliminary work standing at 18,000," Mr. Minckler said. "The majority of men comprise field workers, who have been fruitgrowers, and local laborers. Very few were used to work of this nature, but since the middle of this month the force is being increased rapidly towards 2,500 men."

"The entire area has been completely changed in appearance. There is a fully equipped first aid and dressing station, with an administrative building, mess hall to seat 1,200 at one time, commissary store, time office to handle 2,500 men, a complete system of sanitation, steam and hot water installed throughout, modern work shops energized by electricity, a carpenter shop, thirty-two three to six-room cottages for housing the staff, miles of standard gauge rails, nearly a score of cranes, derricks, steam shovels, engines and a modern ambulance for removal of operative cases to hospital in Wenatchee, twelve miles away."

"The only fatality which has occurred to date, according to Dr. Bartlett, was on February 19, when a workman engaged on a coffer dam fell into the swift current and was drowned. No serious accidents have occurred so far, but a total of 1,450 minor accidents and surgery cases have been handled. Temperatures there are ranging up to 106 at present."

CALIFORNIA SHIPS MANY SARDINES

Monterey, Cal., reports that at the close of the sardine season in February, 185,822 tons of sardines had been transferred from the fishing fleet to canneries.

**ELABORATE SETS
FOR WAR PICTURE
COMING HERE SOON**

The largest outdoor set ever made at Universal City, larger even than the gigantic cathedral used in "The Hunchback of Notre Dame," was built for "All Quiet" which is soon to be shown at the Capitol Theatre. It represented the great German training barracks. The building was more than 300 feet in length and five stories in height at its peak. Hundreds of tons of gravel were used in making the parade ground covering several acres.

**GARDENERS HEAR
OF NEW BERRY****Prof. E. M. Straight Tells of
Experimental Farm Product**

Description of a new strawberry, which he has been cultivating for the last four or five years at the Dominion Experimental Farm, and which he thought to be particularly well adapted to the conditions on Vancouver Island, was given by Prof. E. M. Straight before a luncheon gathering of approximately 200 at the Sidney station yesterday.

The group consisted mainly of members of the Victoria Horticultural Society, the Seaside Fruitgrowers' Association and the Keating Co-operative Association.

The new berry, Prof. Straight added, had been named by him "New Victoria." He also spoke of weevil baiting and outlined the general horticultural work being carried on at Sidney.

FROZEN BERRIES

Captain Livesey, manager of the Seaside Fruitgrowers' Association, gave an interesting talk on frozen strawberries, showing samples of the fruit, along with logans, raspberries, cherries and rhubarb.

H. C. Oldfield, president of the Seaside Fruitgrowers' Association, moved a vote of thanks to Professor and Mrs. Straight for the excellent luncheon and talks they had given. A. B. Morrill, president of the Vancouver Island Horticultural Association, seconded the motion.

Following the luncheon, which was tastefully served under the trees at the farm, Professor Straight took his guests around the station, showing them the different features of the experimental work which was being carried out.

Perhaps "Darling, I won a medal at the cookery school." "Wonderful. But tell me, what is this I am eating?" "Guess." "Your medal."

Pile Sufferers**End Your Misery Without Salves
or Cutting**

External treatments cannot permanently end Piles. Nor does cutting remove the cause.

The cause is internal—bad circulation of the blood in the lower bowel. The veins are flabby—the bowel walls weak—the parts almost dead. To quickly and safely rid yourself of piles an internal medicine must be used to heal and strengthen the affected parts. Dr. J. S. Leonard, a specialist, after years of study discovered a real internal Pile remedy. He named his prescription HEM-ROID, and prescribed it for 1,000 patients, with the marvelous record of success in 980 cases, and then decided every Pile sufferer should be able to get HEM-ROID from their own druggist.

Don't waste time on external remedies or think of the pain and expense of an operation. Get a package of HEM-ROID from McParlane and Vancouver Drug Stores with their guarantee of money back if it does not end all Pile misery. (Adv.)

**JUST
ONCE****and your rugs
are clean!****SO POWERFUL** is the suction created by **THE PRINCESS Electric Cleaner** that you need only run it once over your rugs and carpets to have them absolutely clean.

Powerful, yet gentle, too, for deeply imbedded dirt and grit are removed without the slightest harm to rug fabrics. Come in to-day and let us demonstrate how easy it is to own and operate a Princess Cleaner.
